RE: PLAN CHECK NO. 0988
SAN JUAN POOL CONSTRUCTION @
DAN KISS
4319 CARTESIAN CIRCLE
PALOS VERDES PEN, CA

Dear Mr. Uremura,

Upon the request of San Juan Fiberglass Inc., Hemet, CA, I have reviewed the plot plan for the RE construction. This letter is to offer our recommendations regarding construction at this site consisting of expansive soil. Enclosed also Engineering drawing to be substituted for those submitted previously.

San Juan fiberglass pools are manufactured of a multi-layer built-up woven roving and chopped strand mat saturated with isophthalic resin. The normal pool shell thickness is 3/16 inches. However, special pools are manufactured so that the pool can withstand an equivalent fluid pressure of 62.5 lbs. per cu.ft. equivalent fluid pressure. For such a pool, the final thickness will be 3/4" thick.

It is our understanding, based on geotechnical information given to us through phone conversation, that the site material is expansive in nature. Based on our past experience with construction in the high expansive soil area, we recommend the following:

1. The pool deck shall be 4'-0" wide and shall be constructed in accordance with walkway details shown on Drawing no. 1A.

2. Pool site shall be graded so that all surface drainage be directed away from the pool area and drain properly.

3. The deep end of the pool shall be reinforced to withstand 62.5 lbs. per cu. ft. equivalent fluid pressure, due to the presence of a relative steep slope beyond the deep end of the pool. The additional pool shell reinforcement shall be from the center of the longside and wrap around

the deep end to the center of the opposite side. Refer to drawing 1A for details.

4. The owner shall take measure to protect the sloping embankment from erosion.

If the above are implemented, we consider this pool meets our specifications for construction in the expansive soil area. If you have any question, please do not hesitate to contact me at (415) 939-6842.

Sincerely,

Hon V. Lao, P.E.

HVL/jl

Enclosure: specification, plot plan, drawing 1 & 1A.
