Storm Summary 2-1-16 (Preliminary)

This last storm brought moderate to heavy rain to Los Angeles County from Sunday (1/31/16) morning through the late evening. Rainfall totals were generally between 0.25 and 1.00 inch in the valleys and 1.00 to 3.00 inches in the mountains, with some areas of the San Gabriel mountains receiving up to 4.25 inches of rain. Storm water capture facilities were activated in the West, East and South areas. Approximately 1,260 acre feet (410 million gallons) of storm water was captured at the spreading grounds. That's enough water for 10,080 people for one year. The attached map shows the rainfall totals from this weather system as of Monday, February 1, 2016 at 7:00 a.m.

This map displays data for the most recent storm.
