BEST MANAGEMENT PRACTICES FOR CONSTRUCTION ACTIVITIES*

Storm Water Pollution Control Requirements for Construction Activities
Minimum Water Quality Protection Requirements for All Development Construction Projects/Certification Statement

The following is intended as an attachment for construction and grading plans and represent the minimum standards of good housekeeping which must be implemented on all construction sites regardless of size. (Applies to all permits)

- ☐ Eroded sediments and other pollutants must be retained on site and may not be transported from the site via sheetflow, swales, area drains, natural drainage courses or wind.
- ☐ Stockpiles of earth and other construction related materials must be protected from being transported from the site by the forces of wind or water.
- ☐ Fuels, oil, solvents and other toxic materials must be stored in accordance with their listing and are not to contaminate the soil and surface waters. All approved storage containers are to be protected from the weather. Spills must be cleaned up immediately and disposed of in a proper manner. Spills may not be washed into the drainage system.
- ☐ Non-storm water runoff from equipment and vehicle washing and any other activity shall be contained at the project site.
- ☐ Excess or waste concrete may not be washed into the public way or any other drainage system. Provisions shall be made to retain concrete wastes on site until they can be disposed of as solid waste.
- ☐ Trash and construction related solid wastes must be deposited into a covered receptacle to prevent contamination of rainwater and dispersal by wind.
- ☐ Sediments and other materials may not be tracked from the site by vehicle traffic. The construction entrance roadways must be stabilized so as to inhibit sediments from being deposited into the public way. Accidental depositions must be swept up immediately and may not be washed down by rain or other means.
- ☐ Any slopes with disturbed soils or denuded of vegetation must be stabilized so as to inhibit erosion by wind and water.
- ☐ Other_____

As the project owner or authorized agent of the owner, I have read and understand the requirements listed above, necessary to control storm water pollution from sediments, erosion, and construction materials, and I certify that I will comply with these requirements.

Re: permits issued 9-29-05 LACB&S

Date: 3-31-06

This letter is to ask for an extension on these permits as follows:

Permit # 0102, 0105, 0107 – all roofing work
Job address - 4550 Via Marina #0102
Job address - 4626 Via Marina #0105
Job address -13802 Northwest Passage #0107

(3) Multi-family dwellings owned and operated by E&S Ring Management

These roofs have been posted until September of 06' for budgetary reasons. E&S Ring is asking for an extension to these permits for the purpose of not having to pay permits fees again.

Sincerely,

Ed Sciommeri
Project manager
