Dear Valued Customer,

Southern California Edison Company (SCE) recently attempted to read your electrical meter and found that your electric usage was un-metered. This notice is to make you aware that an un-metered electrical service is in violation of the California Utilities Commission (CPUC) approved tariffs. A meter must be installed to record your energy consumption and provide you with an accurate electric bill.

SCE's records indicate that a final City or County electrical inspection of your premises has **not** been received. Currently, SCE is unable to install your electric meter without a final inspection from the appropriate governing agency. SCE must follow both the CPUC rules and local ordinances when providing electric service. If a final electrical inspection has been completed, please have the City or County notify SCE immediately so that your meter can be installed, otherwise SCE will be required to disconnect your electrical service within (ten) **10 days** from the date of this letter.

As an alternative to SCE disconnecting your electrical service, you or your electrician can make arrangements for temporary power until SCE is allowed to restore your service to a metered permanent connection as required per our tariffs.

Should you have any questions, please call me at (626) 303-8438.

Sincerely,

Anthony Esquer
