OWNER-BUILDER DECLARATION

I hereby affirm that I am exempt from the Contractor's License Law for the following reason *(Section 7031.5, Business and Professions Code): Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500).*:

☐ I, as owner of the property will do the work, and the structure is not intended or offered for sale.

(Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself provided that such improvements are not intended or offered for sale. May 31, 1984

Mr. Stephen J. Koonce
County Engineer

Attention Mr. Martin L. Murphy

REQUEST FOR PROVISIONAL HOUSE CONNECTION PERMITS
SEWERS IN TRACT NO. 36750
PRIVATE CONTRACT NO. 10190

Permission is requested to connect the houses on Lots 1-9 of Tract No. 36750 to the main line sewer constructed under Private Contract No. 10190. The certificate of partial acceptance pending manhole adjustments and cleaning was issued by the County Engineer on May 31, 1984.

Until such time as the streets have been paved, the manholes adjusted to finished street grade, and the sewers cleaned, inspected, and found satisfactory by the County Engineer, we will assume all responsibility for the protection and maintenance of the sewers and appurtenances.

We will install three 4" by 4" posts, eight feet long, set three feet into the ground around the perimeter of all manholes in areas where construction equipment travels or operates, such posts to be maintained in place until the start of final paving operations; or as an alternative to the posts described above, we will protect the manhole against physical damage by equipment and will install close-fitting covers of plywood completely covering the manhole channel and shelf so that dirt or other material cannot enter the sewer.

Under the supervision of the County Engineer, we will install sand traps per Standard Plan S-20 in the first manhole upstream from any operating sewer in such manner that no dirt, sand, or other debris can be washed into or enter the existing sewers in operation.

We will maintain in place the sand traps and any channel covers until the final paving is in place and manhole frames have been adjusted to grade, and remove such sand traps and channel covers after final inspection by and in the presence of the County Engineer.

Also, we will seal the tops of all manholes subject to drainage infiltration in a watertight manner satisfactory to the County Engineer. Such watertight sealing will be maintained in effect until final paving of the immediate area.

It is our understanding that if this request is approved by the County Engineer, provisional house connection permits will be issued, and upon final acceptance of the sewers, these permits will be considered permanent.

Attached is a signed waiver from our sewer contractor approving the use of the sewer.
