

FREE SHARPS PROGRAM

Background

What is home-generated sharps waste?

“Home-generated sharps waste” means hypodermic needles, intravenous needles, lancets, and other devices that are used to penetrate the skin for the delivery of medications derived from a household.

After September 1, 2008, State law prohibits residents from disposing home-generated sharps waste in the trash.

As a benefit of the Franchise Agreement, Burrtec is offering a FREE Sharps program to its single family and multi-family cart customers residing in the Santa Clarita Valley franchise community.

To participate in the program, simply stop by Burrtec’s Santa Clarita office located at 26000 Springbrook Avenue, Suite 101, Saugus, CA 91350, to request your FREE container. Once the container has been filled, please return it to the address above and request a new one (limit 3 containers per customer per year). It’s as simple as that!

Container Use

1. Deposit used syringes, needles and lancets into the red container with the sharp end first. Do not overfill.
2. After container is $\frac{3}{4}$ full, snap the cap firmly to close and place in plastic sealed bag.
3. Return the container to the address listed above.
