

DEFINITION OF "LARGE SUPERMARKETS AND RETAIL STORES"

Background

As required by Alternative 5, the County Working Group is required to "define large supermarkets and retail stores. At a minimum the definition would include all stores required to comply with Assembly Bill 2449."

In addition, on January 22, 2008, the Board of Supervisors adopted a motion requesting the County Working Group to "Report back to the Board of Supervisors by July 1, 2008 on a plan for integrating convenience stores and other appropriate franchise stores whose cumulative square footage exceeds 10,000 square feet into the Single Use Bag Reduction and Recycling Program by July 1, 2009, consistent with the County's adopted goals."

Lastly, on February 6, 2008, the Board of Supervisors adopted a motion requesting the County Working Group to "evaluate other methods by which we may reduce the use of plastic carryout bags in smaller stores located in the unincorporated areas of the County. At a minimum, the County Working Group should evaluate instituting a standard prohibition on the use of plastic bags via the County's business licensing and conditional use permits."

Store Categories

In response to these directions, staff has prepared the following three discrete categories of definitions for stores that may be incorporated now or in the future in the County's Single Use Bag Reduction and Recycling Program.

Category 1

Under AB 2449, "large supermarkets and retail stores" are defined as stores that fall under either of the following two categories:

- Large Supermarket -- a full-line, self-service, retail store with gross annual sales of \$2 million or more and which sells a line of dry groceries, canned goods, or non-food items and some perishable goods.
- Retail store -- has over 10,000 square feet of retail space that generates sales tax and has a licensed pharmacy.

Category 2

Defined as "convenience stores and other appropriate franchise stores whose cumulative square footage exceeds 10,000 square feet." The County Working Group is required to report back to the Board of Supervisors by July 1, 2008 on a plan for integrating these stores into the Program by July 1, 2009, consistent with the County's adopted goals.

Category 3

All stores that provide single use carryout plastic bags to the public, including small family owned neighborhood stores. The County Working Group is required to evaluate other methods to reduce the use of plastic carryout bags in smaller stores located in the unincorporated areas of the County, including instituting a standard prohibition on the use of plastic bags.

Action Items to be Considered by County Working Group and Stakeholders

- Staff recommends that the County Working Group adopt the definition as specified in AB 2449 for Category 1, which would be subject to the 30% and 65% bag reduction goals and all other aspects of the Single Use Bag Reduction and Recycling Program.
- The County has several options for incorporating Categories 2 and 3 into the Program, including requirements under conditional use permits, business licenses, County ordinance, or other mechanisms. **Staff seeks input regarding these options before moving forward**, especially relating to the questions identified below:

Questions to consider for Categories 2 and 3

- How will these stores be incorporated into the Single Use Bag Reduction and Recycling Program?
- What will be the reporting mechanism and methodology for these stores?
- Will at-store recycling be implemented at these stores, and if so, how?
- Should a per-bag fee be considered for these stores, and if so, how much?
- Should bags be banned or phased out at Category 3 stores?
- Should the Board of Supervisors use business licenses, conditional use permits, and/or County ordinance to implement bag recycling programs and/or mandates?

PROPOSED DISPOSAL REDUCTION RATE METHODOLOGY

Background

As required by Alternative 5, the County Working Group is required to “establish the disposal rate measurement methodology to evaluate the success of the County goals. At a minimum, the methodology will measure the reduction in consumption of plastic bags, increased at-store recycling of plastic bags, and plastic bags recovered at recycling facilities, on a semi-annual basis, while fully protecting confidential industry information. The County shall establish a framework by which the data submitted is confirmed to be accurate and verifiable on a regular basis.”

On February 6, 2008, the Board of Supervisors also adopted a motion requesting the CEO and DPW “to report back within 60 days with a listing of stores in the unincorporated areas that will be subject to the County's plastic bag policy, and the methodology that will be used to monitor, track and evaluate the progress these stores are making in meeting our policy's goals.”

The County Goals are to reduce the disposal rate of plastic bags by:

- a. A minimum of 30%, using FY 2007-08 as the baseline, by July 1, 2010.
- b. A minimum of 65%, using FY 2007-08 as the baseline, by July 1, 2013.

Proposed Disposal Reduction Rate Methodology

In response to these requirements, staff has developed the following proposed disposal reduction rate methodology, which includes the following three components:

- 1) reduction in consumption of plastic carryout bags;
- 2) total number of bags recycled at-stores; and
- 3) total number of bags recycled via curbside recycling programs.

Disposal Reduction Rate =

$$\frac{(\text{Base Year Consumption}^1 - \text{Reporting Year Consumption}^2)}{\text{Base Year Consumption}} +$$

$$\frac{\text{Plastic Bags Recycled At Stores During Reporting Year}}{\text{Base Year Consumption}} +$$

$$\frac{\text{Plastic Bags Recycled via Curbside Collection Programs During Reporting Year}}{\text{Base Year Consumption}}$$

¹ Base Year Consumption is the amount of plastic bags generated in fiscal year 2007-08, based on data reported to the California Integrated Waste Management Board as required by AB 2449.

² Reporting Year Consumption is the amount of plastic bags generated during a specified fiscal year, based on data reported to the California Integrated Waste Management Board as required by AB 2449.

Example:

Base Year: Large supermarkets and retail stores (Proposed Category 1) consumed 600 million plastic bags during the base year.

Reporting Year: Large supermarkets and retail stores (Proposed Category 1) consumed 400 million plastic bags, collected 100 million plastic bags at stores and recycled 1 million plastic bags via curbside collection program during the reporting year.

$$\begin{aligned} \text{Calculation:} &= \frac{(600\text{M} - 400\text{M})}{600\text{M}} + \frac{100\text{M}}{600\text{M}} + \frac{1\text{M}}{600\text{M}} \\ &= \frac{301\text{M}}{600\text{M}} \\ &= 0.5017 \times 100 \\ &= \mathbf{50.2\%} \end{aligned}$$

Action Items to be Considered by County Working Group and Stakeholders

- Any suggested revisions to the methodology proposed above?
- What framework should be used to confirm the data submitted is accurate and verifiable on a regular basis? Options include:
 - a manifest system
 - tipping fees
 - third-party verification
 - direct County verification
 - store-by-store auditing
 - random inspection
 - mailing/e-submittal by stores

STORE-SPECIFIC PROGRAM OPTIONS

Background

As a component of the Single Use Bag Reduction and Recycling Program, each large supermarket and retail store (as defined) is responsible for developing and implementing store-specific programs from a menu of options within each of the following three key components. County staff will be available to assist stores in developing their store-specific programs. Each store would be required to develop a program that addresses, at a minimum, each of the concepts itemized below (in **blue**), by implementing one or more of the choices suggested.

1. Retraining of Store Personnel (Baggers, Clerks, etc.)

- Develop a staff training plan that highlights the negative impacts plastic bag litter has on the environment and supports the goals of the Program. Choices include:**
 - i. Plastic bag fact sheets
 - ii. Informational DVDs
 - iii. Employee workshops
 - iv. Incentives for participation
- Promote the purchase and use of reusable bags and encourage smart bagging techniques. Choices include:**
 - i. For each transaction, asking the customer if they brought their reusable bags today
 - ii. Encouraging customers to purchase reusable bags at store or recommending the use of paper bags rather than plastic bags
 - iii. Placing a sign at the store front reminding customers to bring their reusable bags
 - iv. Implementing smart bagging techniques, including:
 - 1. Eliminating unnecessary double-bagging
 - 2. Eliminating unnecessary bagging of single items or bulky items
- Encourage customers to recycle bags at the store. Choices include:**
 - i. Placing plastic bag recycling bins in a visible, accessible location
 - ii. Incorporating signs that highlight the purpose of the bins
 - iii. Incorporating messages in public education efforts (see #3 below) that encourage/remind residents to bring clean bags back to the store for recycling

2. Incentives To Reduce Single Use Bag Consumption

- Establish a customer rewards program or otherwise encourage the use of reusable bags. Choices include:**
 - i. Monthly raffles for reusable bag use
 - ii. Club card rewards/gifts for reusable bag use

- iii. Small discount on purchase
- iv. Donate profits from reusable bag sales/use to charities and schools to support related causes (litter prevention, wildlife protection, etc.)

Establish financial incentives to reduce plastic bag usage. Choices include:

- i. Providing a credit for each reusable bag used
- ii. Charging a per-bag fee for each plastic bag provided to customers

3. Public Education/Awareness

Within the store, choices include:

- i. Sell reusable bags in multiple locations
- ii. Make reusable bag displays more prominent, located near checkout
- iii. Run PSA on monitors at check-out stands, if applicable
- iv. Display environmental message on shopping carts
- v. Environmental awareness photo gallery/display in front of store
- vi. Posters/banners in parking lots or at store front
- vii. Environmental message on single use and reusable bags

Within the community, choices include:

- i. Participate in reusable bag promotions
- ii. Provide in-kind contributions at reusable bag events
- iii. Inform the public about the program on the store's website
- iv. Sponsor school-based education programs

Environmental Message

- i. Imprint on each distributed plastic carryout bag an environmental message describing the negative impacts littered plastic carryout bags have on the environment and wildlife, and the need to use reusable bags

Action Items to be Considered by County Working Group and Stakeholders

- Should additional programs or options be added to the list above?
- Should certain options be incorporated as minimum criteria for participation?
- What mechanism should be used for stores to get input from the County?
- How can we maximize store participation?

PROPOSED ENVIRONMENTAL MESSAGE

Background

On January 22, 2008, the Board of Supervisors adopted a motion requesting the County Working Group to develop a public education campaign and an environmental awareness message to be imprinted on each plastic carryout bag distributed by large supermarkets and retail stores. The public education efforts and ongoing communication will need to describe the negative impacts littered plastic carryout bags have on the environment and wildlife, and the need to use reusable bags. The educational efforts will be made through outreach events, utilization of the media, and the internet.

The environmental message can incorporate two aspects, one attention-getting, the second being more informative. Each large supermarket and retail store (as defined) is required to incorporate the environmental awareness message as a component of the Single Use Bag Reduction and Recycling Program. The following are suggestions for consideration and to spark additional discussion and ideas:

First sentence:

- Do You Really Need This Plastic Bag?
- Kick The Plastic.
- Do Your Part. Recycle This Bag.
- Reduce. Reuse. Recycle.
- Reusable Bags...saving the environment, one bag at a time.

Second Sentence: *(the following may be used in combination with the 1st sentence)*

- Protect The Environment By Using Reusable Bags.
- Reduce Litter and Impacts to Wildlife.
- Bring A Reusable Bag Next Time.
- Bring Your Bags Back for Recycling.

Action Items to be Considered by County Working Group and Stakeholders

- Preferences and/or additional suggestions for messages?
- Ideas for making the message prominent and effective?
- Ideas for selection, including a competition?

PROPOSED PLASTIC BAG MESSAGE

- 1 plastic is forever
protect the environment by using reusable bags
- 2 reduce | reuse | recycle
this bag
- 3 DO YOUR PART
recycle this bag
- 4 do you really need this plastic bag?
bring a reusable bag next time.
- 5 reduce litter & impacts to wildlife
- 6 **KICK** the plastic

PUBLIC EDUCATION EFFORTS

Background

As a component of Alternative 5, the County Working Group is required to:

- develop public educational materials that promote reusable bags and at-store recycling with a consistent message
- work with County departmental recycling coordinators to ensure distribution of promotional materials to employees and at facilities, events, or other appropriate opportunities
- Communicate and collaborate with the 88 Cities in Los Angeles County and local Council of Governments to create a Countywide coordinated and consistent antilitter campaign
- Purchase reusable bags for large-scale giveaways to promote consumer use of reusable bags.

Below are draft suggested action items that may be considered by the County Working Group in implementing these educational components of the Program.

Public Education Campaign

1. Countywide public education campaign

- Develop branding, which includes environmental slogan and logo, that can be applied to various media.
- Raise awareness among consumers of the impacts plastic bags have on the environment and encourage usage of reusable bags. This could include:
 - i. Posters to hang in and at front of stores
 - ii. Banners to hang in store parking lots and throughout major streets
 - iii. Billboards to place along major streets and on buses
 - iv. Advertisements to place in local newspapers and magazines
 - v. Advertisements to place in bus shelters
 - vi. Public service announcements/commercials to air on local television networks and radio stations
 - vii. Brochures/handouts to distribute at stores and public outreach events
 - viii. Decals that consumers can hang/stick in their vehicles

2. Reusable bag promotions

- Sponsor plastic bag collection events where consumers can exchange a certain number of unwanted plastic bags for a reusable bag.
- Distribute free reusable bags and educational material at environmental outreach events. For example, the County will be participating in the following countywide events in April of this year to celebrate Earth Day.
 - i. **April 3:** Environmental Awareness Day, *Canyon Country*
 - ii. **April 9-10:** Los Angeles County Public Health Event, *Los Angeles*
 - iii. **April 12:** Earth Day on the Promenade, *Santa Monica*
 - iv. **April 12-13:** Green Living Expo, *Los Angeles*
 - v. **April 12-13:** Aquarium of the Pacific Earth Day Celebration, *Long Beach*
 - vi. **April 12:** County Sanitation Districts Earth Day, *Whittier*
 - vii. **April 19-20:** K-EARTH Earth Day, *Los Angeles*
 - viii. **April 19:** Splash Earth Day, *Los Angeles*
 - ix. **April 26:** Long Beach Honors Earth Day, *Long Beach*
 - x. **April 26:** Eco Fair, *Studio City*
 - xi. **April 27:** Children's Earth Day at STAR Eco Station, *Culver City*
 - xii. **April 30:** Los Angeles County Public Works Event, *Alhambra*

Website

We are currently in the process of developing a website for the Single-Use Bag Reduction and Recycling Program. A draft will be available for review at the April County Working Group meeting. The website will be designed to serve as a convenient and valuable resource, including information about upcoming meetings, draft working documents, and other information. To raise awareness of the necessity of reusable bags, information regarding the environmental impacts of plastic bag litter and the benefits of using reusable bags will also be incorporated into the website in a manner that is user-friendly and visually engaging. Lastly, we will add all stakeholders to an email listserve that will coordinate communication between meetings. We appreciate any advance suggestions regarding the content and design of the website.

Action Items to be Considered by County Working Group and Stakeholders

- Any additional ideas regarding public outreach and education?
- Advance suggestions regarding the content and design of the website?
- Additional suggestions for promoting and distributing reusable bags?

REUSABLE BAG MESSAGE
