

Clean LA provides residents, businesses, and local governments with an invaluable resource that answers all types of green questions. The Clean LA website and hotline provide information on household hazardous and electronic waste collection, composting, residential and business recycling, waste tire recycling, illegal dumping prevention, and much more.

Clean LA is making greening our community simple. Click. Call. Conserve.

Quick facts:

- Clean LA is a public outreach campaign of the County of Los Angeles Department of Public Works.
- Clean LA is a one-stop solution for anyone in LA County with questions about how to “green” our communities.
- CleanLA.com houses many award-winning programs that reach out to all Los Angeles County residents, businesses, and local government.
- The website (www.CleanLA.com) and hotline (1 (888) CLEAN LA) provide users with information related to recycling, conservation, hazardous and electronic waste, smart gardening techniques, waste tire recycling, and much more.
- Clean LA also aims to educate residents, businesses, and government about proper disposal for various materials.
- The goal of Clean LA is to conserve natural resources, reduce waste, and protect health and safety.

Frequently asked questions:

Q: How do I find out what can be recycled?

A: Just visit www.CleanLA.com or call the hotline at 1 (888) CLEAN LA to find a list of materials that can be recycled.

Q: Can I put electronic waste (e-waste) in my recycling bin?

A: No, but there are plenty of household hazardous and electronic waste events throughout Los Angeles County. Visit www.CleanLA.com and find “hazardous and e-waste events” for locations near you.

Q: How do I report illegal dumping?

A: Click on www.CleanLA.com to find out more about illegal dumping and how to report an incident anonymously.

Q: I’m planting a garden in the spring and would love to learn the best way to make it as green as possible. Does Clean LA have gardening tips?

A: Yes! Clean LA has information on the countywide “Smart Gardening” program, which offers free workshops on how to compost, recycle grass, and make your garden “water wise” and “fire wise.”

Q: I’m confused about where to dispose of old medication! Does Clean LA address medication disposal?

A: Absolutely. No drugs down the drain please! Clean LA lets you know how to properly dispose of medication.

Q: I’m trying to teach my children about how important it is to care for our local environment. Is Clean LA an educational resource as well?

A: Yes, it most certainly is. The website www.CleanLA.com has programs for parents and teachers to get involved in and to help teach kids about being green.

Q: I try to conserve water as much as possible, but I feel as though there’s more that I can do. Can Clean LA help teach me how to conserve more water?

A: Yes. Not only does Clean LA give answers to recycling questions, it also has tips for conserving water in efficient ways.

Q: How do I get more information on alternative, nonhazardous products?

A: Clean LA can provide you with recipes for cleaning products using ingredients found in most household cabinets.

Q: I’m confused about what is hazardous waste. Does that include sharps, batteries, and fluorescent light bulbs?

A: There are different types of waste. A list of sharps waste, universal waste, electronic waste, and hazardous waste can be found on the Clean LA website. The website also has information on how to dispose of these wastes properly.
