

**LOS ANGELES COUNTY DEPARTMENT OF PUBLIC WORKS
CAPITAL PROJECTS**

PROJECT	DESCRIPTION	LOCATION	ESTIMATED COST	ADVERTISING DATE
Camp Glenn Rockey - Modular Unit	Procure and install one (1) new modular living quarter (3,600 sq. ft.) for use by juvenile camp facility Probation Staff. Develop site (i.e., ADA compliant path of travel, utilities POC, etc.) as required for the use of new modular living quarter.	1900 N. Sycamore Canyon Road, San Dimas, CA 91733	\$629,000	Sep-12
East Antelope Valley Animal Shelter	The project consists of an approximately 20,000 square-foot East Antelope Valley Animal Shelter including entry lobby and education center, adoption area for 5,200 dogs and 4,000 cats yearly, relinquishment, animal control, quarantine, euthanasia, veterinary clinic, spay neuter clinic, administration area, and associated public and staff parking spaces. The project will be designed and built to LEED Silver Certification level.	38532, 38560, 38600 and 38624 Sierra Highway, Palmdale, CA, 93550	TBD	Sep-12
Los Angeles River-North Valleyheart	The proposed project consists of construction of a pedestrian trail along north sides of the Los Angeles River adjacent to Valleyheart Drive between Fulton and Coldwater Canyon Avenues. The project will include drought tolerant native vegetation landscaping, irrigation, hardscape, ADA pedestrian access and trail improvements with interpretive signage.	Studio City/Sherman Oaks	\$1,824,100	Oct-12
County Data Center	<p>The project consists of constructing a new data center for the County of Los Angeles. The facility will include approximately 30,000 square feet of raised floor data center to house computer hardware, operational staff, and supporting and emergency equipment to maintain the center on continuous operation. In addition, the facility will include approximately 30,000 additional square feet to house information technology staff and peripheral equipment of other County Departments. A two-story, 27,000 square foot annex building with two floors of underground parking will also be constructed as office space to house the DHS, DMH, and DPH departments.</p> <p>The facility is an essential facility, and as such, all main and support services must be designed and constructed to provide continuous service.</p>	7471 Descanso Street, Downey, CA 90242	\$76,095,146	Dec-12
RLANRC North Campus Consolidation	The North Campus Consolidation project includes renovation of the inpatient acute care rehabilitation services JPI building, construction of a new inpatient acute care rehabilitation services addition to the north of the JPI building, demolition of some existing buildings, and relocation of the outpatient services and construction of new outpatient facilities.	7601 East Imperial Hwy, Downey, CA 90242	\$30,590,000	May-13
Oxford Retention Basin Project	This project is to improve the capacity and water quality in the Oxford Retention Basin by dredging the basin and adding a berm in the basin to recirculate water. Installation of emergent wetlands will provide water treatment to reduce pollutants. In addition landscaping, decorative fencing, interpretive signage and pocket parks will be constructed.	Marina Del Rey	\$6,490,000	Jun-13
