

## MARINA DEL REY 18-INCH WATERLINE REPLACEMENT PHASE IIIB NOTICE OF START OF CONSTRUCTION

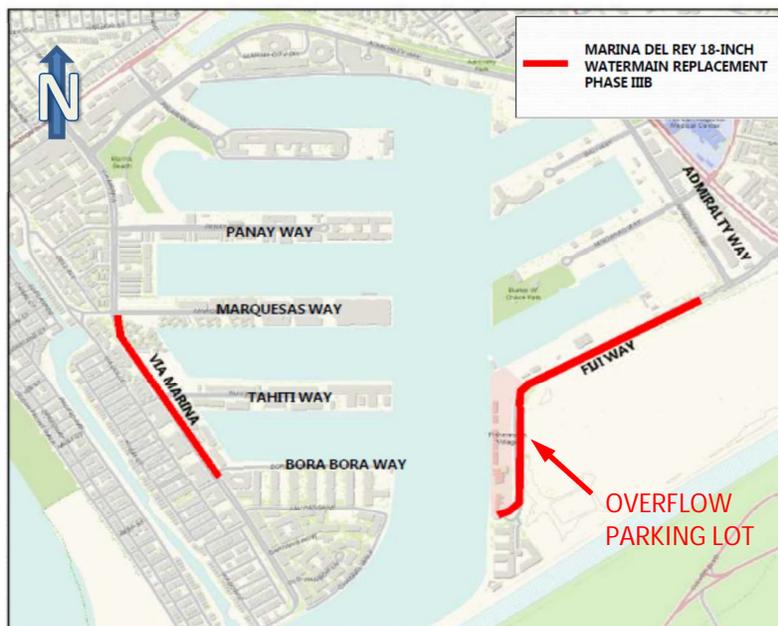

The Los Angeles County Department of Public Works, on behalf of the Marina Del Rey Water System, has issued a contract to Minco Construction to construct the Marina Del Rey 18-Inch Waterline Replacement Phase IIIB project. The project involves the construction of approximately 5,950 linear feet of new 18-inch diameter steel pipeline to replace the existing, aged, and undersized 10 and 14 inch-diameter water mains around Marina Del Rey along Via Marina from Marquesas Way to Bora Bora Way, and along Fiji Way from Admiralty Way to the end of Fiji Way. All fire hydrants and customer service connections will be improved as well. The purpose of the project is to improve the Marina Del Rey Water System to meet domestic and fire protection water demands more effectively. This project is the fourth and final part of a multi-phase plan to replace the existing Marina Del Rey Water System. Barring unforeseen circumstances, the construction dates will be as follows:

Construction Start: December 15<sup>th</sup>, 2014  
Construction End: August 2015  
Construction Hours: Monday – Friday, 8:00am – 5:00pm

Please note that a portion of the Fisherman's Village parking lot will be used as a staging area for construction, but an overflow parking lot located directly across the street will be available for patron use throughout construction. Also, please note that construction activities may cause traffic delays between the hours of 8:00am – 5:00pm, Monday through Friday. For the safety of everyone, please exercise caution while in the vicinity of all construction activities by observing all traffic controls and flagmen.

We appreciate your patience and cooperation as construction progresses.
