

Waste Reduction & Recycling

Personal and Community Health

- 1.P.12 Identify global environmental issues.
- 1.P.14 Identify ways to reduce pollution and harmful effects to health by using alternative methods of transportation.
- 2.P.16 Evaluate influences on the selection of personal healthcare products and services.
- 2.P.17 Analyze how environmental conditions affect personal and community health.
- 2.P.18 Discuss ways to stay informed about environmental issues.
- 2.P.20 Evaluate the benefits of informed health choices.
- 3.P.24 Evaluate current research about the health consequences of poor environmental conditions.
- 3.P.25 Identify government and community agencies that promote health and protect the environment.
- 5.P.30 Apply a decision-making process to a community or environmental health issue.
- 8.P.40 Encourage societal and environmental conditions that benefit health.

Injury Prevention and Safety

- 8.S.31 Identify and support changes in the home, school, or community that promote safety.

Composting

Nutrition and Physical Activity

- 1.N.1 Distinguish between facts and myths regarding nutrition practices, products, and physical performance.
- 1.N.2 Research and discuss the practical use of current research-based guidelines for a nutritionally balanced diet.
- 1.N.3 Explain the importance of variety and moderation in food selection and consumption.
- 2.N.17 Assess personal barriers to healthy eating and physical activity.
- 3.N.26 Describe community programs and services that help people get access to affordable healthy foods.
- 7.N.38 Identify ways an individual can eat more fruits and vegetables.
- 7.N.39 Describe how to take more personal responsibility for eating healthy foods.
- 7.N.40 Participate in school and community activities that promote fitness and health.

Personal and Community Health

- 1.P.12 Identify global environmental issues.
- 2.P.15 Discuss influences that affect positive health practices.
- 2.P.17 Analyze how environmental conditions affect personal and community health.
- 2.P.18 Discuss ways to stay informed about environmental issues.
- 2.P.20 Evaluate the benefits of informed health choices.
- 3.P.24 Evaluate current research about the health consequences of poor environmental conditions.
- 8.P.40 Encourage societal and environmental conditions that benefit health.

Stormwater Urban Runoff

Personal and Community Health

- 1.P.6 Describe the dangers of exposure to ultraviolet (UV) light, lead, asbestos, pesticides, and unclean air and water; and discuss strategies for avoiding exposure.
- 1.P.12 Identify global environmental issues.
- 1.P.13 Describe the impact of air and water pollution on health.
- 1.P.14 Identify ways to reduce pollution and harmful effects to health by using alternative methods of transportation.
- 2.P.17 Analyze how environmental conditions affect personal and community health.
- 2.P.18 Discuss ways to stay informed about environmental issues.
- 3.P.24 Evaluate current research about the health consequences of poor environmental conditions.
- 3.P.25 Identify government and community agencies that promote health and protect the environment.
- 5.P.30 Apply a decision-making process to a community or environmental health issue.
- 8.P.40 Encourage societal and environmental conditions that benefit health.

Injury Prevention and Safety

- 8.S.31 Identify and support changes in the home, school, or community that promote safety.

Illegal Dumping

Personal and Community Health

- 1.P.6 Describe the dangers of exposure to ultraviolet (UV) light, lead, asbestos, pesticides, and unclean air and water; and discuss strategies for avoiding exposure.
- 1.P.12 Identify global environmental issues.
- 1.P.13 Describe the impact of air and water pollution on health.
- 1.P.14 Identify ways to reduce pollution and harmful effects to health by using alternative methods of transportation.
- 2.P.17 Analyze how environmental conditions affect personal and community health.
- 2.P.18 Discuss ways to stay informed about environmental issues.
- 3.P.24 Evaluate current research about the health consequences of poor environmental conditions.
- 3.P.25 Identify government and community agencies that promote health and protect the environment.
- 5.P.30 Apply a decision-making process to a community or environmental health issue.
- 8.P.31 Identify and support changes in the home, school, or community that promote safety.
- 8.P.40 Encourage societal and environmental conditions that benefit health.

Household Hazardous Waste

Personal and Community Health

- 1.P.6 Describe the dangers of exposure to ultraviolet (UV) light, lead, asbestos, pesticides, and unclean air and water; and discuss strategies for avoiding exposure.
- 1.P.12 Identify global environmental issues.
- 1.P.13 Describe the impact of air and water pollution on health.
- 1.P.14 Identify ways to reduce pollution and harmful effects to health by using alternative methods of transportation.
- 2.P.15 Discuss influences that affect positive health practices.
- 2.P.16 Evaluate influences on the selection of personal healthcare products and services.
- 2.P.17 Analyze how environmental conditions affect personal and community health.
- 2.P.18 Discuss ways to stay informed about environmental issues.
- 2.P.20 Evaluate the benefits of informed health choices.
- 3.P.24 Evaluate current research about the health consequences of poor environmental conditions.
- 3.P.25 Identify government and community agencies that promote health and protect the environment.
- 3.P.26 Assess ways to be a responsible consumer of health products and services.
- 5.P.30 Apply a decision-making process to a community or environmental health issue.
- 7.P.35 Analyze environmental barriers to adopting positive personal health practices and strategies for overcoming these barriers.
- 8.P.31 Identify and support changes in the home, school, or community that promote safety.
- 8.P.39 Support personal or consumer health issues that promote community wellness.
- 8.P.40 Encourage societal and environmental conditions that benefit health.

Injury Prevention and Safety

- 8.S.31 Identify and support changes in the home, school, or community that promote safety.
