Re: Proposed annexation of Mar Vista Addition No. 4 to the City of Los Angeles.

Dear Mr.:

At the meeting held on May 8, 1958, the County Boundary Commission reviewed the legal description of boundaries and map submitted by you for the above named proposed annexation to the City of Los Angeles.

The County Surveyor called to the attention of the Commission that although the description could be approved within the meaning of Section 35002 of the Government Code, certain minor changes were desirable to clarify and perfect some of the references. Said minor changes would make no change in the location of the boundaries shown on your map.

The County Boundary Commission approved the boundaries description submitted by you and the alternate boundaries recommended by the County Surveyor and respectfully suggests the alternate boundaries be used in all proceedings relating to the proposed annexation.

Very truly yours,

Ray E. Lee, Secretary

Honorable Roger W. Jessup, Chairman

Attention Mr. Ray E. Lee, Secretary

Dear Sir:

Pursuant to your request of April 30, regarding the proposed Mar Vista Addition No. 4 to the City of Los Angeles, we have reviewed the legal description of the boundary submitted by the City and find that although the description can be approved by the Commission as to definiteness and certainty in accordance with the provisions of Section 35002 of the Government Code, certain minor changes are desirable to clarify and perfect some of the references.

Therefore, we have prepared the attached revised description of boundaries, which we recommend that the Commission approve as an alternate recommended description and forward to the City of Los Angeles.

Also, on maps showing this annexation we have indicated the location of existing special district boundaries in relation to the proposed city boundary.

This annexation comprises a combination of Mar Vista Addition No. 4 and Mar Vista Addition No. 6, approved by the Boundary Commission on November 29, 1951.

All original papers regarding this matter are attached.
