COUNTY SURVEYORS MAP NO. B-900

SHEET NO. 1 OF 2 SHEETS

SCALE: 1 INCH = 600 FT.

JOB NUMBER 4000

C. E. ARNOLD - COUNTY SURVEYOR

THIS MAP COMPILED FROM SURVEYS MADE BETWEEN 1921 AND 1940.

BEARINGS ARE BASED ON THE BEARING OF THE SOUTH LINE OF SECTION 31 T.6N. R13W. AS SHOWN C.S. B-745-8.

FIELD BOOKS AS SHOWN IN EACH NOTE.

FIELD WORK	BY	H. WAITE, C.E. BRUNTY, E.T. MANKEY, A. BRACKETT, C.A. BENSON, T.J. STEVENSON, E.A. ROSECRANS.
OFFICE WORK	BY	R. R. McPHERSON C.E. DROWN
CHECKED	BY	R. R. McPHERSON

THIS MAP FILED MARCH 1963

WILLIAM J. FOX - COUNTY SURVEYOR

INDEX 77 & 78 & 64

Monument chosen at N. ¼ corner of section 35, T.5N., R.15W. by S.K. 11/15/62

C.S.B- 900-1

A1 OF A3

FOR SURVEY OF SECTIONS 13 TO 16

SECTION CORNER
J.M. Tate found original monument here. No trace of the original now remains. Relocated this corner at Tates record distances from the Section Corner 1 mile east and witness Corners ½ mile south per C.S. 8754. Set 3" iron pipe in concrete in 1968 with brass cap marked. F.B. 812-43.

SECTION CORNER
In 1933, the Co. Surveyor found a 3" iron pipe with brass cap marked "1933 Cor." Section corners set 3" iron pipe in concrete with brass cap marked "1933 Cor." See C.S. 8-1563-2 F.B. 812-46

This Line Re-established by the county surveyor in 1930 by proportion as shown on C.S. B-438-1

R. 15 W.

CLOSING TOWNSHIP CORNER
In 1923, the Co surveyor found a 6"x 8" rock, 8" above surface marked "CC 1 S N" on south face with 6 notches on each of the east, south and west faces.
The original Closing Corner, a 4"x4" post in stone mound was set by U.S. Dep. Surveyor Norway in 1879. See C.S. 9362-4.
In 1914 Percy L. Day, a National Forest Examiner of the U.S. forest Service, in making a Survey for Homestead Entry Survey No. 63, found Norways old post lying on stone mound and replaced it with the found stone. See C.S. 9373-1. Replaced Days stone in 1930 with a 2" iron pipe set in concrete with brass cap marked. F.B. 385-107.

SECTION CORNER
Located by proportion 3 miles north and 1 mile south. Set 2" iron pipe in concrete in 1930 with brass cap marked, This point falls on S.E. slope near top of ridge.
F.B. 385-96.

1/4 SECTION CORNER
Located by proportion between Section Corners. Set 2" iron pipe in concrete in 1930 with brass cap marked. This point falls on Southwest slope about 200' west of top of spur.
F.B. 385-94.

SECTION CORNER
Located at record distance and bearing from Norways bearing tree per C.S. 9362-2. Set 2" iron pipe in concrete in 1928 with brass cap marked.
F.B. 314-153. F.B. 385-92.

In 1928, the Co. Surveyor found a 32" oak tree with old blaze on its N.W. face and accepted it for the bearing tree established by U.S. Dep. Surveyor Norway in 1879. See C.S. 9362-2.
F.B. 314-152.

In 1928, the Co. Surveyor found an blazed oak and accepted it for a bearing tree established by U.S. Dep. Surveyor Norway in 1879. See C.S. 9362-2.
F.B. 314-150.

1/4 SECTION CORNER
In 1928, the Co. Surveyor found a 2"x2" slake in rock mound at east edge of canyon. The point checks Norways tie to bearing tree per C.S. 9362-2.
Replaced the 2"x2" slake in 1928 with a 2" iron pipe set in concrete with brass cap marked.
F.B. 314-150.

SECTION CORNER
In 1927, the Co. Surveyor found old white 2"x2" slake in mound of rock and replaced same with a 2" iron pipe set in concrete with brass cap marked.
F.B. 314-56. F.B. 512-124.

TOWNSHIP CORNER
In 1927, the Co. Surveyor found a 2"x2" slake in rock mound here 10' east of top of ridge with 4"x4" slake scribed "S.36 R.16 W" on one side lying on ground near by. This 2"x2" slake was also found by S.G. Chamberlain, a Licensed Surveyor in 1931 and was accepted as the Township Corner by him. See F.B. 314-136 C.
Replaced the 2"x2" slake in 1927 with a 2" iron pipe set in concrete with brass cap marked.
F.B. 314-187

CENTER OF SECTION
Located by calculated intersection.
Set 2" iron pipe in concrete in 1934 with brass cap marked.
F.B. 512-131

SECTION CORNER
In 1926, the Co. Surveyor found a hard stone firmly imbedded in a rock mound, stone was marked with a chiseled cross. At that time a Mr. John Ferrel stated that the stone had been accepted as the corner for 26 years. Norway did not set any monument here on the original survey in 1879. He set a witness corner 2 chains north. See C.S. 9101-11/2.
This corner falls in a sheep pasture [illegible] fed by Norway and 1/2 about 1 record distance from the beginning of descent to the north.
Replaced the found stone in 1926 with a 2" iron pipe set in concrete with brass cap marked. F.B. 343-12, 13.

SECTION CORNER
Located by proportion 5 miles north, 1 mile south, 1 mile east and 1 mile west. Set 2" iron pipe in concrete in 1934 with brass cap marked.
F.B. 512-126.

1/4 SECTION CORNER
Location by proportion
Nothing set

SECTION CORNER
In 1928, the Co. Surveyor found 2" iron pipe, plug and tack in small rock mound. This pipe is probably a replacement of Norways original monument per C.S. 9101-11.
Replaced the pipe in 1928 with a 2" iron pipe set in concrete with brass cap marked.
F.B. 343-14.

SECTION CORNER
In 1928, C.E. Bailey found a 1" iron pipe here. He obtained an affidavit from W.H. Cruzon to the effect that Cruzon saw the setting of the 1" iron pipe and that it replaced Norways original monument. See C.S. B-78, Mt. 62-118 and Tract No. 3253 - M.B. 36-194.
The old 1" iron pipe is apparently a replacement of the 1" iron pipe. Replaced 1" in 1928 with a 2" iron pipe set in concrete with brass cap marked
F.B. 343-16. F.B. 398-146

1/4 SECTION CORNER
Located by proportion between Section Corners. Set 2" iron pipe in concrete in 1930 with brass cap marked.
F.B. 385-111

1/4 SECTION CORNER
Located by proportion between adjacent Section Corners. Set 2" iron pipe in concrete in rock mound in 1930 with brass cap marked.
F.B. 385-78

SECTION CORNER
Located by proportion 3 miles north, 1/2 miles south, 1 miles west and 1 mile east. Set 2" iron pipe in concrete in 1930 with brass cap marked
F.B. 385-84.

SECTION CORNER
Located by proportion 4 miles north, 1/2 mile south, 2 miles west and 1/2 mile east. Set 2" iron pipe in concrete in 1928 with brass cap marked, 30' north of top of ridge.
F.B. 385-68

1/4 SECTION CORNER
In 1929, the Co. Surveyor found a mound of rock 3' in diameter by 1' high. The distance to the ridge of mesa to the South checks the ridge Topographic call per C.S. 9101-11.
Accepted the mound and in 1930 set a 2" iron pipe in concrete in the center, with brass cap marked.
F.B. 385-67.

1/4 SECTION CORNER
Located by proportion between Section Corners. Set 2" iron pipe in concrete in rock mound in 1930 with brass cap marked.
F.B. 385-248.

SECTION CORNER
In 1928, the Co. Surveyor found 18" iron pipe in rock mound with a 3" post, not the original monument, on top of ridge. The tie to ridge to the south checks Norways call per C.S. 9101-11.
Accepted the pipe for the corner and replaced it in 1928 with a 2" iron pipe set in concrete with brass cap marked.
F.B. 343-9 F.B. 398-145

SECTION CORNER
In 1933, the Co. Surveyor found a portion of old scribed stake in mound of rock and in 1933 replaced it with a 2" iron pipe set in concrete with brass cap marked. See C.S. B-1563-1 F.B. 628-19, F.B. 718-22.

SECTION CORNER
In 1928, the Co. Surveyor found a 3" iron pipe, plug and tack in small rock mound. This pipe is probably a replacement of Norways original monument per C.S. 9101-11.
Replaced the pipe in 1928 with a 2" iron pipe set in concrete with brass cap marked.
F.B. 343-14.

1/4 SECTION CORNER
Location by proportion
Nothing set

SECTION CORNER
In 1928, C.E. Bailey found old 1" iron pipe in intersection of fence lines.
In 1928, C.E. Bailey found a 1" iron pipe here. He obtained an affidavit from W.H. Cruzon to the effect that Cruzon saw the setting of the 1" iron pipe and that it replaced Norways original monument. See C.S. B-78, Mt. 62-118 and Tract No. 3253 - M.B. 36-194.
The old 1" iron pipe is apparently a replacement of the 1" iron pipe. Replaced 1" in 1928 with a 2" iron pipe set in concrete with brass cap marked
F.B. 343-16. F.B. 398-146

1/4 SECTION CORNER
Located by proportion between Section Corners. Set 2" iron pipe in concrete in 1930 with brass cap marked.
F.B. 385-25.

SECTION CORNER
Located by proportion 1 mile west and 1 mile west. Set 2" iron pipe in concrete in 1930 with brass cap marked.
F.B. 385-27.

1/4 SECTION CORNER
Located by proportion between Section Corners. Set 2" iron pipe in concrete in 1930 with brass cap marked.
F.B. 385-26

CENTER OF SECTION
Located by intersection
Set 2" iron pipes in concrete in 1928 with brass cap marked
F.B. 343-16

SECTION CORNER
Found 2" iron pipe, plug and tack in rock mound. Pipe was set by W.H. Barclay in 1926 by simple proportion between Section Corner of Sec. 3 and 4 and pipe at 164.76' south of S.E. Corner of Sec. 34.
In 1928, County Surveyor accepted Barclays pipe account of being record distance from both the Sec Corner north and the Sec Cor. to the west, and replaced it, in 1928 with a 2" iron pipe set in concrete with brass cap marked. See C.S. B-1563. F.B. 343-36 F.B. 398-146.

1/4 SECTION CORNER
Located by proportion between Section Corners. Set 2" iron pipe in concrete in 1940 with brass cap marked.
See C.S. B-1563-1 F.B. 775-46.

SECTION CORNER
Located by intersection of the west line of Sec. 2 with a straight line on C.S. B-1563-1 set 2" iron pipe in concrete in 1940 with brass cap marked.
F.B. 776-42.

1/4 SECTION CORNER
Located by proportion between Section Corners. Set 2" iron pipe in concrete in 1940 with brass cap marked.
See C.S. B-1563-1

SECTION CORNER
In 1928, the Co. Surveyor found a sandstone at above surface in rock mound, stone marked with 3 notches on east face only, 1 notches on south face. Accepted this rock for section corner and replaced in 1928 with a 2" iron pipe set in concrete with brass cap marked.
F.B. 398-10

WITNESS CORNER
In 1928, the Co. Surveyor found a mound of rock 3' in diameter by 1' high. The distance to the ridge of mesa to the South checks the ridge Topographic call per C.S. 9101-11.
Accepted the mound and in 1930 set a 2" iron pipe set in concrete with brass cap marked.
F.B. 385-67.

WITNESS CORNER
In 1928, the Co. Surveyor found a mound of rock 3' in diameter by 1' high. The distance to the ridge of mesa to the South checks the ridge Topographic call per C.S. 9101-11.
Accepted the mound and in 1930 set a 2" iron pipe set in concrete with brass cap marked.
F.B. 385-67.

WITNESS CORNER
In 1928, the Co. Surveyor found a mound of rock 3' in diameter by 1' high. The distance to the ridge of mesa to the South checks the ridge Topographic call per C.S. 9101-11.
Accepted the mound and in 1930 set a 2" iron pipe set in concrete with brass cap marked.
F.B. 385-67.

SECTION CORNER
In 1928, the Co. Surveyor found a sandstone at above surface in rock mound, stone marked with 3 notches on east face only, 1 notches on south face. Accepted this rock for section corner and replaced in 1928 with a 2" iron pipe set in concrete with brass cap marked.
F.B. 398-10

SECTION CORNER
In 1928, the Co. Surveyor found a bedstone, tree 36" in diameter at base for bearing tree "1" in branches, base blazed and marked "B.T. N." also mag. bearing "Pine" per C.S. 9101-11. F.B. 398-16

SECTION CORNER
Located by proportion 5 miles north, 1 mile south, 1 mile east and 1 mile west. Set 2" iron pipe in concrete in 1934 with brass cap marked.
F.B. 512-126.

1/4 SECTION CORNER
Located by proportion between Section Corners. Set 2" iron pipe in concrete in 1930 with brass cap marked.
F.B. 385-25.

1/4 SECTION CORNER
Located by proportion between Section Corners. Set 2" iron pipe in concrete in 1930 with brass cap marked.
F.B. 385-27.

SECTION CORNER
Located by proportion 1 mile west and 1 mile west. Set 2" iron pipe in concrete in 1930 with brass cap marked.
F.B. 385-27.

1/4 SECTION CORNER
Located by proportion between Section Corners. Set 2" iron pipe in concrete in 1930 with brass cap marked.
F.B. 385-26

1/4 SECTION CORNER
Located by proportion between Section Corners. Set 2" iron pipe in concrete in 1928 with brass cap marked.
F.B. 343-31

SECTION CORNER
In 1927, the Co. Surveyor found old white 2"x2" slake in mound of rock and replaced same with a 2" iron pipe set in concrete with brass cap marked.
F.B. 314-56. F.B. 512-124.

SECTION CORNER
Located by proportion 5 miles north, 1 mile south, 1 mile east and 1 mile west. Set 2" iron pipe in concrete in 1934 with brass cap marked.
F.B. 512-126.

1/4 SECTION CORNER
Location by proportion
Nothing set

SECTION CORNER
In 1928, the Co. Surveyor found 2" iron pipe, plug and tack in small rock mound. This pipe is probably a replacement of Norways original monument per C.S. 9101-11.
Replaced the pipe in 1928 with a 2" iron pipe set in concrete with brass cap marked.
F.B. 343-14.

SECTION CORNER
In 1928, C.E. Bailey found a 1" iron pipe here. He obtained an affidavit from W.H. Cruzon to the effect that Cruzon saw the setting of the 1" iron pipe and that it replaced Norways original monument. See C.S. B-78, Mt. 62-118 and Tract No. 3253 - M.B. 36-194.
The old 1" iron pipe is apparently a replacement of the 1" iron pipe. Replaced 1" in 1928 with a 2" iron pipe set in concrete with brass cap marked
F.B. 343-16. F.B. 398-146

1/4 SECTION CORNER
Located by proportion between Section Corners. Set 2" iron pipe in concrete in 1930 with brass cap marked.
F.B. 385-25.

SECTION CORNER
Located by proportion 1 mile west and 1 mile west. Set 2" iron pipe in concrete in 1930 with brass cap marked.
F.B. 385-27.

1/4 SECTION CORNER
Located by proportion between Section Corners. Set 2" iron pipe in concrete in 1930 with brass cap marked.
F.B. 385-26

CENTER OF SECTION
Located by intersection
Set 2" iron pipes in concrete in 1928 with brass cap marked
F.B. 343-16

SECTION CORNER
Found 2" iron pipe, plug and tack in rock mound. Pipe was set by W.H. Barclay in 1926 by simple proportion between Section Corner of Sec. 3 and 4 and pipe at 164.76' south of S.E. Corner of Sec. 34.
In 1928, County Surveyor accepted Barclays pipe account of being record distance from both the Sec Corner north and the Sec Cor. to the west, and replaced it, in 1928 with a 2" iron pipe set in concrete with brass cap marked. See C.S. B-1563. F.B. 343-36 F.B. 398-146.

1/4 SECTION CORNER
Located by proportion between Section Corners. Set 2" iron pipe in concrete in 1940 with brass cap marked.
See C.S. B-1563-1

SECTION CORNER
Located by intersection of the west line of Sec. 2 with a straight line on C.S. B-1563-1 set 2" iron pipe in concrete in 1940 with brass cap marked.
F.B. 776-42.

1/4 SECTION CORNER
Located by proportion between Section Corners. Set 2" iron pipe in concrete in 1940 with brass cap marked.
See C.S. B-1563-1

SECTION CORNER
In 1928, the Co. Surveyor found a sandstone at above surface in rock mound, stone marked with 3 notches on east face only, 1 notches on south face. Accepted this rock for section corner and replaced in 1928 with a 2" iron pipe set in concrete with brass cap marked.
F.B. 398-10

WITNESS CORNER
In 1928, the Co. Surveyor found a mound of rock 3' in diameter by 1' high. The distance to the ridge of mesa to the South checks the ridge Topographic call per C.S. 9101-11.
Accepted the mound and in 1930 set a 2" iron pipe set in concrete with brass cap marked.
F.B. 385-67.

SECTION CORNER
In 1928, the Co. Surveyor found a bedstone, tree 36" in diameter at base for bearing tree "1" in branches, base blazed and marked "B.T. N." also mag. bearing "Pine" per C.S. 9101-11. F.B. 398-16

SECTION CORNER
In 1928, the Co. Surveyor found 18" iron pipe in rock mound with a 3" post, not the original monument, on top of ridge. The tie to ridge to the south checks Norways call per C.S. 9101-11.
Accepted the pipe for the corner and replaced it in 1928 with a 2" iron pipe set in concrete with brass cap marked.
F.B. 343-9 F.B. 398-145

SECTION CORNER
In 1933, the Co. Surveyor found a portion of old scribed stake in mound of rock and in 1933 replaced it with a 2" iron pipe set in concrete with brass cap marked. See C.S. B-1563-1 F.B. 628-19, F.B. 718-22.

1/4 SECTION CORNER
Located by proportion between Section Corners. Set 2" iron pipe in concrete in 1940 with brass cap marked.
See C.S. B-1563-1

SECTION CORNER
Located by intersection of the west line of Sec. 2 with a straight line on C.S. B-1563-1 set 2" iron pipe in concrete in 1940 with brass cap marked.
F.B. 776-42.

1/4 SECTION CORNER
Located by proportion between Section Corners. Set 2" iron pipe in concrete in 1940 with brass cap marked.
See C.S. B-1563-1

Found 2" iron pipe, 6" above surface. This is the pipe called S. Sec. 34 by Hartley, who says it was set by Bailey in 1[illegible]. See C.S. 9362-4. Bailey's corner should have been about 2 of here. The Co. Surveyor uses this pipe to fix the west Section 2 as shown on C.S. B-1563-1, and rejects it. F.B. Section Corner.
