NOTE: The ℄ of LORENA ST as run is the ℄ of an existing 100' R/W as acquired by the City of Los ANGELES for tower line purposes as per F.B. 500 & Bureau of POWER & LIGHT R/W Maps L 180 & L 188
This survey is a retracement of their survey as per F.B. 500 and an effort was made to re-establish the tangents as they were laid out originally. Additional ties are made to cross-lines where the orig. field work did not shown them accurately and other cross ties are accepted in view of fact that R/W is of record and also impossibility of reconstructing the lines due to shifting of & destruction of points.
