1-24-27

Mrs. Gettelman at #1705 Merrill Ave volunteered the following information: That when the P.E. originally built their first two tracks (date unknown) (1902 M.R.) they constructed a culvert where the present culvert is, said culvert carrying the water the same direction as the present one; that when the P.E. added their two outside tracks (date unknown, but more than 15 years ago) this culvert was closed; that since then all water running west on Merrill has stood in the street east of the tracks; the present culvert was built about a month ago; and that recently during heavy rains a great deal of water has been coming west off of Holmes Ave whereas none did before. Mrs. Gettelman has lived here 15 years.
