STATION	B. S.	H. I.	F. S.	ELEV. KNEEN 9-15-39	JN 6889

Bandini St - 6th St - Alley W. of Meyler St

Test Hole #1 at NW cor Lot 18, BlK E, Gaffey Tr.

0.00' to 1.7' Heavy Adobe

1.7' — 2.3' Coarse, hard formation that would come out with 4" auger. Dug only a few inches in this (Shale)

The adobe was so hard, with large cracks, that the auger would not penetrate — I dug the above hole near a Fig Tree that is kept watered at NW cor Lot 18, BlK E, Gaffey Tract.

Cesspools have been dug recently on Lot 18, Blk E & Lot 17, Blk F Gaffey Tract.

Owner of Lot 17, Blk F said — "0.00'-1.5' Heavy adobe
1.5'-4.5' Shale
4.5'-15.0' Hard, red clay
15'-18' — sandstone, rock."

Could not get auger in ground at any other point in Dist. Tried in front of Lot 1, Blk 2, Buenos Aires Tr, and in 3 places at W. end of 6th St., in front of Lots 1, 2 & 3, Tr 8054, but did not get over 3" deep at any place.
