

Receiving Water Limitation Compliance Reports

City of Calabasas

FY 2010-11

On March 4, 2008 the Los Angeles Regional Water Quality Control Board (Board) sent to the City a notice that Board staff believed the City had violated waste discharge regulations as established in the Board's Order 01-182 and as amended in Order R4-2006-0074 and R4-2007-0042. Additionally, the Board required the City to respond to these allegations. The City responded timely to these allegations and believes that the NOV and Order were improperly issued. The court overturned the allegations and dismissed the lawsuit.
