

City of Westlake Village

Program Management Part I-Section F.3.

All sections of the Storm Water Ordinance from the City of Westlake Village's Municipal Code were submitted with this 2003-2004 Annual Report and labeled "Attachment I.F.2". No amendments were made to these sections during this reporting cycle.

However, it has recently been noted that the requirements to drop the SUSMP threshold for 100,000 square foot industrial/commercial development projects down to one acre needs to be implemented. Therefore, changes to the following code sections are in progress now:

- 5.5.015 "Planning Priority Projects" item 2.
- 5.5.041 A.2.
- 5.5.041 B.4.c.
