I.	Site Preparation																																																																									
	· Soils Testing	X																																																																							
	· Staging Area/Mobilization	X	X																																																																					
	· Preliminary Weed Abatement	X																																																																					
	· Buffer Area Weed Removal		X	X																																																																		
	· Buffer Area Weed Abatement	As Needed																																																																				
	· Exotic Removals - .17 acres				X	X																																																																	
II.	Erosion Control Measures																																																																							
	· Straw Wattles						X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X																																													
	· Silt Fence																					X	X	X	X	X																																													
	· Sand Bag Dams																									X																																											
	· V-ditch Sediment Removal	As Needed																																																																				
III.	Mulch Placement and Soils Decompaction						X	X	X	X	X																																																												
IV.	Boulder Placement											X	X	X	X	X																																																							
V.	Coarse Woody Debris Placement																X	X	X	X	X																																																	
VI.	12" of Soils Removal @ .70 Acre Stockpile Area																					X	X	X	X
