

60th Street West and Ave M 36-in Water Transmission Main

This project involved the installation of 1.16 miles of 36-inch pipeline along 60th Street West from Avenue L to Avenue M and along Avenue M from 60th Street West to 62nd Street West in Lancaster. The newly installed pipeline will connect the west side of the Lancaster system's 2555 pressure zone to a future tank site at Avenue M and 62nd Street West. Construction of this project began in December 2010 and was completed in September 2011.
