

In partnership with the City of Malibu & Los Angeles County Waterworks #29, West Basin Municipal Water District brings you the

Commercial Restroom Retrofit Program

Devices are provided **FREE** to you thanks to these partners!!

We target the following devices for upgrade to high-efficiency models:

- ⊙ Toilets 3.5 gallon per flush (or more)
- ⊙ Urinals 1.5 Gallon per flush (or more)
- ⊙ Faucet Aerators & Showerheads using 2.0 gallon per minute (or more)
- ⊙ Basic irrigation controllers

SAVE UP TO 75% ON YOUR WATER BILL
with new high-efficiency fixtures!

How to verify if your toilet qualifies for this program:

Look at the space on your toilet bowl between the seat and the tank for a **stamp** that indicates your GPF.

Look at the design on the lower part of your toilet. The shape illustrated below means toilet **doesn't** qualify.

Look under the tank lid/side of tank for a **stamp** which shows the **manufacturing date** (must be prior to 1992) **OR** the **GPF**.

All Installations will include all necessary materials: new toilet, toilet seat, wax ring and bolts. Installation also includes the removal of all old materials from the building (recycling all porcelain).

Call *Bottom Line Utility Solutions, Inc.* (our AUTHORIZED PROVIDER) to find out more about this water saving opportunity!

This program is offered for a limited time.
