

Topanga Forks / Topanga Oaks Water Main Replacement

This project consists of installing approximately 8,350 linear feet of 16-inch steel transmission pipeline along Topanga Canyon Blvd. from Old Topanga Road to Hillside Drive. This pipeline is needed to replace an existing aged 6-inch pipeline. Also, 2,800 linear feet of 12-inch diameter water main to be installed in Topanga Canyon Boulevard from Old Topanga Canyon Road to Topanga School Road, then up to the Topanga Forks Tank. The 12-inch water main will replace an existing 10-inch diameter water main. Construction of this project began in October 2009 and was completed in May 2011.
