From the Airport Manager

Danny Hagle (dhagle@dpw.lacounty.gov)

To help us provide quality products, services, and facilities at the airport, your feedback and suggestions are invaluable and greatly appreciated. We welcome all suggestions, thoughts and comments.
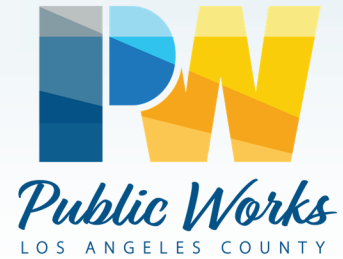

Airport Ops & Admin

We encourage everyone to use the online Airport Tenant Portal to submit hangar/tiedown maintenance related work requests. This is the best and quickest way for airport management to assign and track progress from the time a request is submitted to the time it is completed. This also allows us to monitor any delays and provide status updates to our tenants directly to their online accounts.

Airport security and operational safety are enhanced when we all remain aware of our surroundings and comply with the airport's rules, regulations, and policies. Making sure that only authorized vehicles or persons enter the airport access gates and that the vehicle access gate closes behind you before proceeding in or out of the airport goes a long way towards preventing vehicle/pedestrian deviations or other security/safety issues. Also, if you see something unsafe or that may compromise security, please report it to airport management. Your cooperation is essential.

Swift's UL94 unleaded avgas is anticipated to be available for purchase, in addition to 100LL, at the airport starting June 1st. Please contact airport management if you have any questions.

Likely within the next month, MH Aviation will take over the retail fuel services from the County. They will continue to provide full- and self-serve 100LL and full-service Jet A at competitive pricing.
