Monthly Newsletter

September 16, 2024

From the Airport Manager

Danny Hagle (dhagle@pw.lacounty.gov)

Hello, Fox Field tenants. We are into the 2nd half of the year already! Tenant feedback is very important to us. It helps us understand what we can do to improve the airport. Feel free to drop by the office any time to let us know what we can do better to improve the airport. Your suggestions are greatly appreciated.

Airport Ops & Admin

I'd like to remind you that we are scheduling and conducting annual hangar inspections. Please make sure that you are prepared with current insurance and registration and airworthiness status for your aircraft. If you have any questions about what is required of you for the annual hangar inspections, feel free to contact us.

Hangar inspections are available every day of the week from 7:00 a.m. to 3:00 p.m. Also, do not wait until the last minute to schedule your inspection. The deadline to schedule inspections is October 31, 2024.

See the feature article on Page 2 of this newsletter. The terminal building here at Fox Field has served as a Cooling Center for airport tenants, visitors, and the local community on numerous days throughout the summer months. A special thanks goes out to the airport tenants who helped welcome visitors and those coming out to take advantage of the Cooling Center. The airport is here to not only serve aviation, but the local community as well.

Aviation Commission Meetings

Wednesday, September 25

7 p.m. to 9 p.m.

Fox Airfield

4725 Wm. J. Barnes Avenue

Lancaster, CA 93536

Wednesday, October 30

County Airports Serve As Cooling Centers During the Hot Summer Months

This year has been and continues to be a hot one! In fact, temperatures in Los Angeles reached 114 degrees this summer, which some climate officials have said has been the hottest on record.

The County's Office of Emergency Management coordinates with various partners/public facilities throughout the County to provide Cooling Centers (indoor air-conditioned locations) where people can keep cool during periods of extreme heat weather conditions.

During periods of excessive heat warnings (when temperatures meet or exceed 105 degrees for at least two days), the terminal buildings at the County's airports, particularly General Wm. J. Fox Airfield in Lancaster, Whiteman Airport in Pacoima, and San Gabriel Valley Airport in El Monte, have been made available this summer as Cooling Centers.

Hopefully, we'll now see a cooling trend as we leave summer and enter fall. However, the County's airports will continue to serve as Cooling Centers when needed, which is one more way the airports can serve not only general aviation but the diverse constituents of, and visitors to, the County of Los Angeles.

For a list of Cooling Centers or ways to escape the heat, visit <https://211la.org/cooling-centers-2024> or dial 2-1-1 for more information about the County's Cooling Centers.
