Hi Chris,

I got your voicemail this morning. You are right, these are the the same location, however they are two different structures. They are probably near each other. Like you mentioned, would you be able to combine the two requests? Would there be a new request #? Thank you so much for your help and for catching this.

Subject: SPATS Request Nos. 52195 and 52196

Good morning. Based on the SPATS permitting guidelines; the two SPATS Request listed above could be combined and approve as one request. The existing facilities that require maintenance appear to be at the same location(?) If you would like; we could cancel one or the other and include the description or scope of work for both on one application. This would minimize the fees. I understand there may be some extenuating circumstance in which case the Permits need to be separate, but please me know what you think and I can amend the SPATS requests as needed if you like.
