ELEVATION CERTIFICATE

This form is to be used for:

1. Post-FIRM construction. If the completed building has been surveyed, the elevation of the lowest floor of the reference level floor from the selected diagram is at an elevation of ___ feet NGVD (or other datum-see #5).

2. Pre-FIRM buildings rated using Post-FIRM rate."The building floor is:___ feet above highest natural grade next to property. If applicable, The building official, the property owner, or the owner's representative should complete the information in Section I and may also complete the certification. Community officials who are authorized by local law or ordinance to provide floodplain management information may also complete this form.

SECTION I BUILDING ELEVATION INFORMATION

1. The reference level is:

2. The garage floor (if applicable) is:

3. The building's lowest floor (or reference level) elevated in accordance with the community's floodplain management ordinances? Yes No Unknown

4. The building official, the property owner, or the owner's representative should complete the information in Section I and may also complete the certification. Community officials who are authorized by local law or ordinance to provide floodplain management information may also complete this form.

5. Indicate the elevation datum system used on the FIRM for base flood elevations: NGVD Other (describe on back)

6. Indicate the elevation datum system used in determining the above reference level elevations: NGVD Other (describe on back)

(ATTENTION: If the elevation datum used in measuring the elevations is different than that used on the FIRM, then the elevations provided must be converted to the datum system used on the FIRM.)

7. Is the reference level based on actual construction? Yes No

8. Provide the following measurements using the natural grade next to the building (round to the nearest foot).

a. The reference level is:

b. The garage floor (if applicable) is:

SECTION II FLOOD INSURANCE RATE MAP INFORMATION

Provide the following from the proper FIRM (see instructions on back-Date of FIRM) and accompanying insurance application:

COMMUNITY NO.
065043

PANEL NO.
125

SUPP Fix
B

DATE OF FIRM
11/15/85

FIRM ZONE
A

BASE FLOOD ELEV.
233.6-2.5

COMMUNITY ESTIMATED BASE FLOOD ELEVATION ESTABLISHED FOR ZONE A OR ZONE V, IF AVAILABLE

Elevation reference mark used appears on FIRM Yes No (See reverse side for details)

SECTION III CERTIFICATION

This certification is to be signed by a licensed surveyor, engineer, architect, or other person authorized by state law to verify elevation information when the building is to be surveyed. If the building does not have the reference level floor in place, fill in the elevation based on construction drawings and do not complete question #8. If "No" is checked, this certification will be valid only for buildings in the course of construction. After construction of the reference level floor is completed, a post-construction elevation certificate will be required for continued flood insurance coverage.
