

# Are you prepared for future flooding?

**JOIN US TO LEARN MORE ABOUT POTENTIAL FLOOD RISKS IN YOUR COMMUNITY**

Los Angeles County is updating its Floodplain Management Plan and would like to hear from residents and property owners in unincorporated communities like yours about:

**Flood risks at your home or on property you own**

**Your home's and community's experiences with flooding**

**What you need to prepare for a flood emergency**

Your participation will also help determine how we can act together to reduce flood risks to your community and property.
