COMPTON/WOODLEY AIRPORT

A NEW AIRPORT TERMINAL BUILDING is being proposed to optimally serve general aviation, airport tenants, and the local community. We're looking to hear from you!

The virtual meeting will be held on May 25, 2023, 6-8 PM and will provide a project overview, a Q&A session, and a forum for your comments, suggestions, and recommendations. Come join us!

OUR GOALS

Research and study the site, requirements, restrictions, and other precedents to provide a design that will serve general aviation, the tenants, and the local community.

Look at innovative services in the industry to provide a modern, efficient, and sustainable project to make the community proud.

Identify opportunities to serve the community. The terminal may provide facilities for local use such as meetings, events, and training opportunities.

Consider the suggestions from the community. Comments received will be beneficial to the design and function of a new airport terminal.
