Sustainable is Attainable

Holiday tips

- **Reduce** waste by wrapping gifts in packing paper, fabric or reusable bags. Plan meals with food that you already have before buying more.
- **Reuse** containers for storing leftovers and disposing of fats, oil and grease. Compost kitchen scraps to nourish your garden. Visit [SmartGardening.com](http://SmartGardening.com) for details.
- **Recycle** your Christmas tree, beverage containers and cardboard boxes. Contact your waste hauler for details.
- **Rethink** what you buy. Consider whether you really need it and whether it can be repaired, reused or recycled.
