- If you are joining us by phone only, using your phone's dial pad, dial \*6 to toggle mute/unmute or \*9 to raise your hand during the Open Discussion.
- You can also email your questions to [OrganicsPlanning@pw.lacounty.gov](mailto:OrganicsPlanning@pw.lacounty.gov)
- Links to presentation materials will be sent to you via e-mail.

# Meeting Overview

## Part I

- County's New SB 1383 Capacity Planning Website
- County's New GIS-based Food Recovery Map

## Part II

- Assessment of Capacity at Regional Organic Waste Processing Facilities - Upcoming Project
- Results of the Jurisdictional Preparedness Survey

## Part III

- Open Discussion

# Part I

County's New SB 1383 Capacity Planning Website

County's New GIS-based Food Recovery Map

# County's New SB 1383 Website

The screenshot shows the website for the Solid Waste Information Management System. The header includes the Public Works logo and navigation links for Home, Residents, Businesses, Online Services, News & Resources, Organics, Help, and Log In. The main content area is titled "Organic Waste Recycling and Edible Food Recovery Capacity Planning" and features three images: a bowl of fresh vegetables, a bunch of carrots, and hands holding a small green seedling. Below the images is a welcome message and a section titled "Senate Bill 1383 Regulations" which includes a thumbnail of a regulation document and a list of statewide goals.

## Organic Waste Recycling and Edible Food Recovery Capacity Planning

Welcome to the Organic Waste Recycling and Edible Food Recovery Capacity Planning Website for Los Angeles County Jurisdictions. Senate Bill 1383 Regulations require counties to submit to CalRecycle a set of information related to organic waste capacity and edible food recovery capacity planning. This website is intended to provide you, as the jurisdiction, the resources for meeting these requirements.

**Senate Bill 1383 Regulations**

In September 2016, Governor Edmund Brown Jr. set methane emissions reduction targets for California (Senate Bill (SB) 1383 Lara, Chapter 395, Statutes of 2016) in a statewide effort to reduce emissions of short-lived climate pollutants. The targets must:

- Reduce organic waste disposal 50% by 2020 and 75% by 2025.
- Rescue for people to eat at least 20% of currently disposed surplus food by 2025.

These are statewide goals that California must collectively achieve, and not individual requirements. In other words, individual jurisdictions and individual food donors are not required to meet the organic waste disposal goals and 20 percent food recovery rate separately.

ORGANIC WASTE CAPACITY DATA DUE TO THE COUNTY  
**within 120 days of notice from Public Works**

**SUBMIT YOUR DATA**

- Designated Jurisdiction Representative (one):
  - First and Last Name
  - Email Address
  - Phone Number

# Part II

Assessment of Capacity at Regional Organic Waste Processing  
Facilities - Upcoming Project

Results of the Jurisdictional Preparedness Survey

# Assessment of Capacity at Regional Organic Waste Processing Facilities – Upcoming Project

- Administrators: County and Consultant
- Duration: January 2022 – June 2022
- Purpose: Identifying available capacity within the region.
- Counties: Imperial, Kern, Kings, Los Angeles, Orange, Riverside, San Bernardino, San Diego, San Luis Obispo, Santa Barbara, and Ventura

**ORGANIC WASTE RECYCLING FACILITY SURVEY**

Date: \_\_\_\_\_

Contact Person: \_\_\_\_\_

Direct Phone: \_\_\_\_\_

Email Address: \_\_\_\_\_

1. Does your facility currently accept or receive waste from LA County?  Yes  No  
If "Yes", skip Question 2 and begin survey. If "No" answer Question 2.

2. If no, does your facility plan to accept or receive waste from LA County?  Yes  No  
If "Yes", do not continue survey. If "No", begin survey.

---

**FACILITY INFORMATION**

Facility Name: \_\_\_\_\_ No. of Operating Days/Week: \_\_\_\_\_

Phone: \_\_\_\_\_

Address: \_\_\_\_\_ Plans for Expansion? Yes  (If no, please fill out both below, below)  
No  (If no, please fill out both below, below)

City: \_\_\_\_\_

County: \_\_\_\_\_

---

**FACILITY OPERATION TYPE**

Process:

Transfer Only (no recycling)  Chipping and Grinding

Composting (Check type, below):  Anaerobic Digestion

Open Windrow  Co-Digestion

Aerial Static Pile  Other (Please explain, below): \_\_\_\_\_

In Vessel \_\_\_\_\_

Other (Explain): \_\_\_\_\_

---

**FACILITY CAPACITY**

Please fill in the table below.

	EXISTING AVAILABLE				PLANNED/PROPOSED			
	Maximum Operating Capacity/Capability (ton/day)	Average Operating Throughput (ton/day)	Residual Send to Landfill (if applicable) (ton/day)	Are there any restrictions on recycling these types of wastes?	Maximum Operating Capacity/Capability (ton/day)	Average Operating Throughput (ton/day)	Residual Send to Landfill (if applicable) (ton/day)	Are there any restrictions on recycling these types of wastes?
Food Waste								
Green Waste								
Landscape and Pruning Waste								
Wood Waste								
Paper Products								
Printing and Writing Paper								
Organics								
Biowaste								

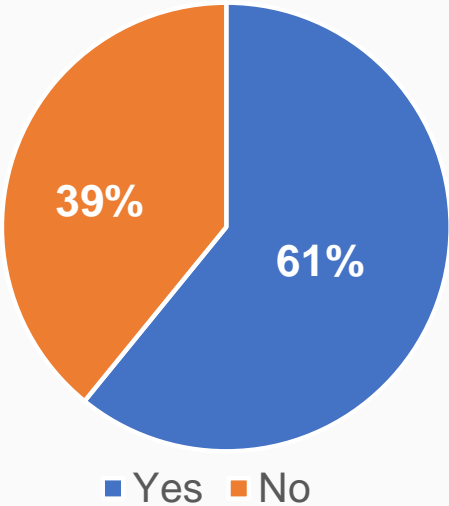

May provide values in other units, if conversion factor is provided.

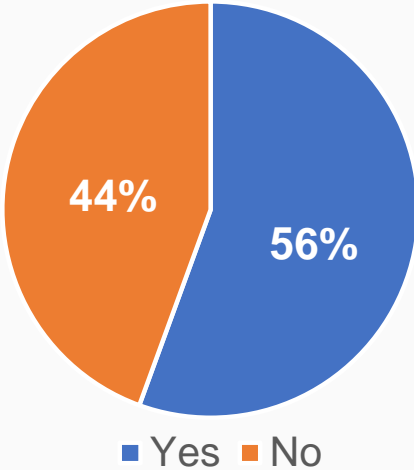

# Results of the Jurisdictional Preparedness Survey

## Ordinance Related Question(s)

Has your jurisdiction adopted an ordinance?

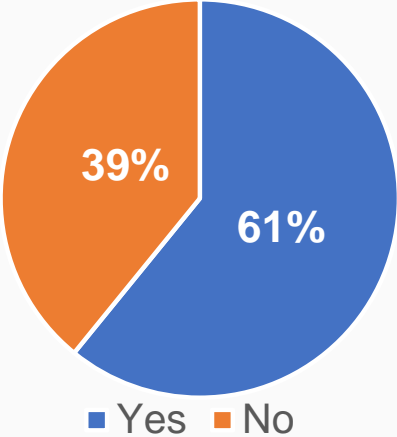

If you answered "No" to Question 1, is your jurisdiction on track to meet the January 1, 2022 deadline for adopting a local ordinance?

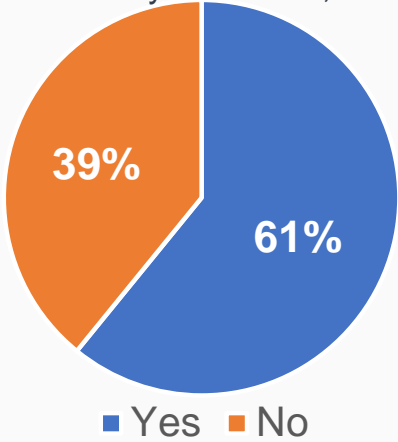

# Results of the Jurisdictional Preparedness Survey

## Edible Food Disposal Related Question(s)

Has your jurisdiction already identified your Tier 1 and Tier 2 commercial edible food generators?

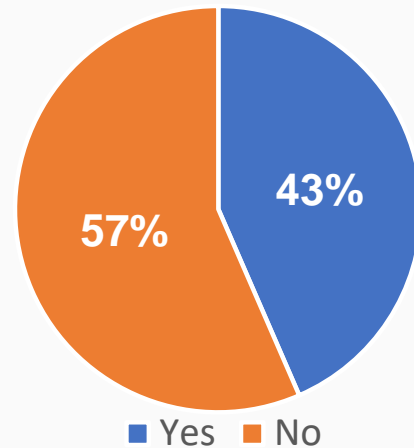

Will your jurisdiction be prepared to estimate the amount of edible food that will be disposed by commercial edible food generators within your jurisdiction by March 31, 2022?

# Results of the Jurisdictional Preparedness Survey

## Edible Food Recovery Capacity Related Question(s)

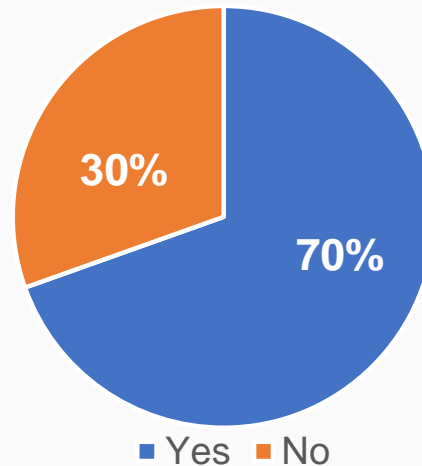

Has your jurisdiction identified any existing, proposed new, or expanded food recovery organizations that will be necessary to recover the edible food that is estimated to be disposed by commercial edible food generators within your jurisdiction?

# Results of the Jurisdictional Preparedness Survey

## Organic Waste Disposal Related Question(s)

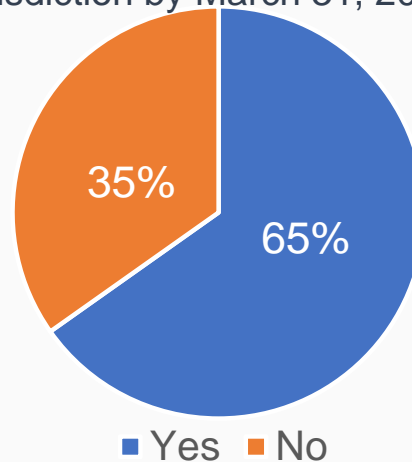

Will your jurisdiction be prepared to estimate the amount of organic waste that will be disposed by residents and businesses within your jurisdiction by March 31, 2022?

# Results of the Jurisdictional Preparedness Survey

## Organic Waste Recycling Capacity Related Question(s)

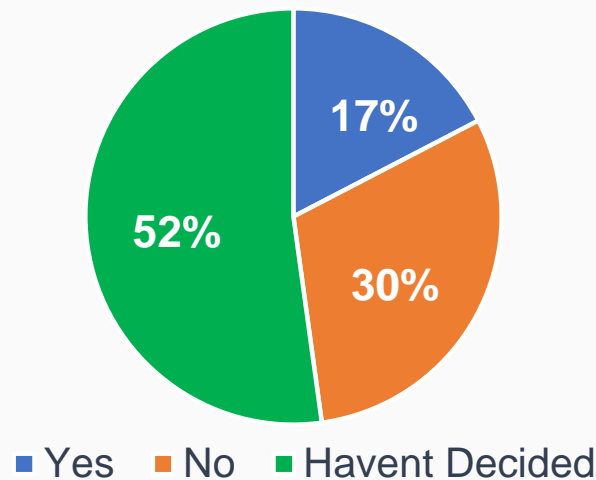

Will your jurisdiction be prepared to estimate the amount of new or expanded organic waste recycling facility capacity that will be needed to process the organic waste that will be disposed by your jurisdiction by March 31, 2022?

# Results of the Jurisdictional Preparedness Survey

## SB 619 Related Question(s)

Is your jurisdiction considering filing an SB 619 notification of intent to comply with the SB 1383 regulations by March 1, 2022?
