April 13, 2023

Mr. Wayne Natri  
Executive Officer  
South Coast Air Quality Management District  
21865 Copley Drive  
Diamond Bar, California

Dear Mr. Natri:

**RECOMMENDED ODOR MITIGATION MEASURES TO MITIGATE ODOR  
AT THE SUNSHINE CANYON CITY/COUNTY LANDFILL CONDITIONAL USE  
PERMIT 00-194-(5)**

The Los Angeles County Solid Waste Management Committee/Integrated Waste Management Task Force (Task Force) has been tracking South Coast Air Quality Management District's (SCAQMD) Monthly Summary of Complaints (enclosed) and the public nuisance violations issued by SCAQMD to the Sunshine Canyon City/County Landfill (Landfill) from 2009 through January 2023. Based on the monthly odor complaint data, the Task Force is very concerned that the residents and the neighboring communities continue to experience an increase in odor nuisance during the past years.

In 2022, a total of 653 complaints were reported to SCAQMD and 12 Notice of Violations (NOVs) were issued to the Landfill operator for violation of SCAQMD's Rule No. 402 and California Health and Safety Code Section 41700 *for "[discharging] such quantities of air contaminants or other material which cause injury, detriment, nuisance, or annoyance to any considerable number of persons or to the public"*. The problem not only persists but has significantly increased, notably during the month of January 2023 with 226 odor complaints and 6 NOVs issued to the Landfill.

Since the lifting of the last Stipulated Order of Abatement (SOA) for the Landfill in 2017, the odor complaints received by SCAQMD has steadily been increasing. During the years of 2021 and 2022, SCAQMD has recorded the highest volume of complaints per month.

With the goal to protect public health and safety of the residents and the communities neighboring the Landfill, the Task Force respectfully requests that SCAQMD considers issuing another SOA to the landfill to mitigate the ongoing odor impacts to the community.

To assist in this regard, the Task force respectfully suggests the following odor control measures which have been effective in reducing the odor complaints resulting from the Landfill's operations:

- Require the operator to hire independent third-party monitoring at or near schools located in the vicinity of the Landfill and to report back to the Landfill operator for immediate action.
- Prohibit the operator from unloading and dumping of transfer trailer loads and route collection trucks at the Landfill between the hours of 6 a.m. and 9 a.m.
- Require the operator to provide the current Best Management Practices, including transfer trailer unloading practices, to mitigate fresh trash odor complaints for further review. Impress upon the operator to implement any additional practices to mitigate the odor recommended or required by any regulatory agency with requisite jurisdiction.
- Require the operator to hire an independent party to evaluate the effectiveness and recommend any needed improvements of physical barriers, such as the Oak Tree mitigation berm; the current odor neutralizer system in the Operator's Transfer Stations; and the odor neutralizer systems at the working face and areas surrounding the Landfill. Based on the recommendations, request the operator to implement the needed improvement to effectively manage the odors.
- Require the operator to hire an independent party to evaluate the Landfill's ability to manage the Landfill's operation during wet weather season. One of the reasons for the significant spike in odor complaints during the month of January 2023 was due the extensive slope erosions which triggered the release of landfill gas into the community.

The Task Force respectfully requests your written response to this request at your earliest convenience, but no later than April 17, 2023.

Pursuant to Chapter 3.67 of the Los Angeles County Code and the California Integrated Waste Management Act of 1989 (Assembly Bill 939), the Task Force is responsible for coordinating the development of all major solid waste planning documents prepared for the County of Los Angeles and the 88 cities in Los Angeles County with a combined population in excess of ten million. Consistent with these responsibilities and to ensure a coordinated, cost-effective, and environmentally sound solid waste management system in Los Angeles County, the Task Force also addresses issues impacting the system on a countywide basis. The Task Force membership includes representatives of the League of California Cities-Los Angeles County Division, County of Los Angeles Board of Supervisors, City of Los Angeles, waste management industry, environmental groups, the public, and a number of other governmental agencies including, but not limited to, the South Coast Air Quality Management District.

Mr. Wayne Nastri
