

2011 ANNUAL REPORT

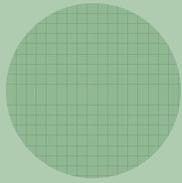

County of Los Angeles Countywide Integrated Waste Management Plan

September 20, 2012

2011 ANNUAL REPORT

- ◎ Provides an annual update to the Los Angeles County Countywide Integrated Waste Management Plan, which includes:
 - ◎ **Summary Plan Assessment (1999)**
 - ◎ **Siting Element Assessment (1997)**

PERMIT CHANGES

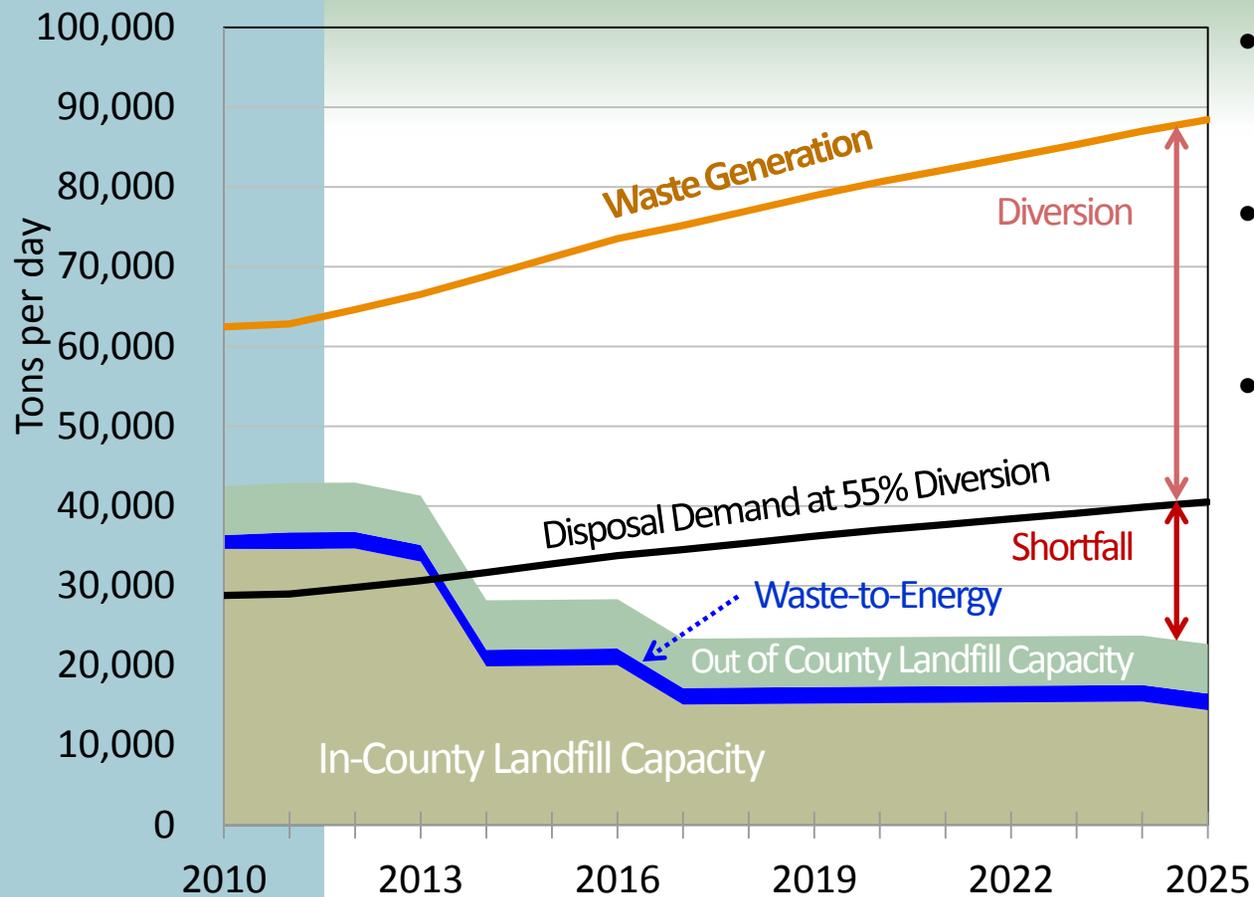

Expanded Facilities

- Antelope Valley Landfill

Proposed Expansions

- Chiquita Canyon Landfill
- Lancaster Landfill
- Scholl Canyon Landfill
- Savage Canyon Landfill

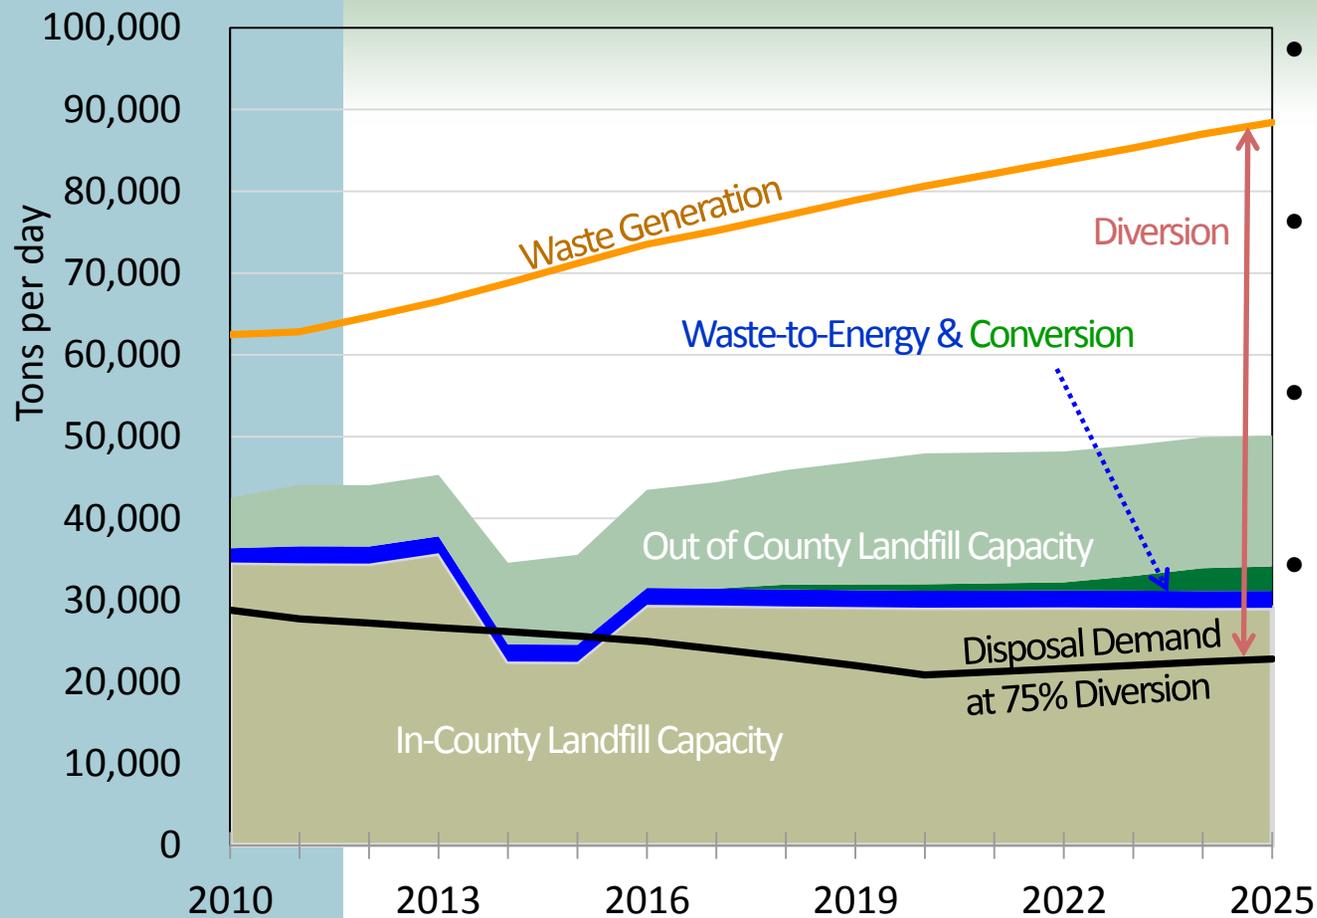

STATUS QUO SCENARIO

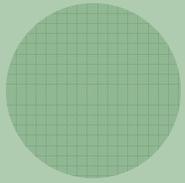

- No increases in diversion rate
- No increases in out-of-County capacity
- No conversion technology facilities (only waste-to-energy)

Reliance on existing disposal capacity alone is insufficient to meet long-term needs.

MULTI-FACETED APPROACH

- Assumes 75% diversion rate by 2020
- In-County landfill expansions
- Conversion/recovery technology is operational
- Out-of-County disposal capacity is available including waste-by-rail

Thank You
