**Existing Outreach Materials**

## Appendix I Existing Outreach Materials

The following are samples of existing outreach materials that can be used to educate the public about stormwater quality and potential illicit discharges. Additional materials are available from LACDPW by calling the Environmental Affairs Section at 626-458-3541.

## POST IN CLEANUP/WORK AREA

# Good Gas Station Operating Practices

**Properly remove and dispose of used materials and wastes.** Collect the gas, which they use from used and full filling cans, using a pump hose. Remove this gas and use the gas just as they use the used gas, because in fact it will be the same.

Properly remove and dispose of used materials and wastes. Collect the gas, which they use from used and full filling cans, using a pump hose. Remove this gas and use the gas just as they use the used gas, because in fact it will be the same.

**Use the correct methods and equipment.** Using the correct equipment and methods is important to ensure that the gas is properly collected and disposed of. Workers should use the correct equipment and methods to ensure that the gas is properly collected and disposed of.

**Use the correct methods and equipment.** Using the correct equipment and methods is important to ensure that the gas is properly collected and disposed of. Workers should use the correct equipment and methods to ensure that the gas is properly collected and disposed of.
