

City of Westlake Village
NPDES Annual Report 2011-2012
Receiving Water Limitation Compliance Report

The City of Westlake Village responds “no” to both the questions determining that no Receiving Water Limitations Compliance Report is required at this time in response to Section II-C.

II Receiving Water Limitations (Part 2)

- A. Are you aware, or have you been notified, of any discharges from your MS4 that cause or contribute to a condition of nuisance or to the violation of any applicable water quality standards? Yes No
- B. Has the Regional Board notified you that discharges from your MS4 are causing or contributing to an exceedance of water quality standards? Yes No

On March 4, 2008 the Regional Board notified the City of wave wash exceedances that alleged violated water quality standards. Those alleged violations, however, occurred miles from the City's jurisdictional boundaries and were not conclusively linked to any discharges from the City. On May 19, 2008, the City submitted a detailed response to the Regional Board regarding these alleged violations. The Regional Board subsequently rescinded this notice by letter signed by the Executive Officer.
