

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4**

This form summarizes the requirements in Order No. 01-182. Each Permittee must complete this form in its entirety, except for those requirements applicable only to the Principal Permittee. Only report activities that were performed during the previous fiscal year. Upon completion, this form shall be submitted to the Principal Permittee, by the date specified by the Principal Permittee, for inclusion in the unified Annual Storm Water Program Report. Attachments should be included where necessary to provide sufficient information on program implementation.

The goals of this Report are to: 1) concisely document implementation of the Storm Water Quality Management Program (SQMP) during the past fiscal year; 2) evaluate program results for continuous improvement; 3) to determine compliance with Order 01-182; and 4) to share this information with other Permittees, municipal decision makers, and the public.

!	YOU MUST FILL OUT ALL THE INFORMATION REQUESTED <i>Do not leave any of the sections blank.</i>
N/A	If the question does not apply to your municipality, please indicate N/A in the space provided and provide a brief explanation
U	If the information requested is currently unavailable, please indicate U in the space provided and give a brief explanation.

This Report Form consists of the following sections:

SECTION	PAGE
I. Program Management	2-4
II. Receiving Water Limitations	5
III. SQMP Implementation	5-7
IV. Special Provisions	8
IV.A. Public Information and Participation Program	8-14
IV.B. Industrial/Commercial Facilities Program	15-17
IV.C. Development Planning Program	18-21
IV.D. Development Construction Program	22-23
IV.E. Public Agency Activities Program	24-33
IV.F. IC/ID Elimination Program	34-37
V. Monitoring	38
VI. Assessment of Program Effectiveness	38
VII. Certification	39

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4**

Reporting Year 2011- 2012

I. Program Management

A. Permittee Name: City of Azusa

B. Permittee Program Supervisor: Carl Hassel
 Title: Assistant Director of Public Works / City Engineer
 Address: 213 E. Foothill Blvd
 City: Azusa Zip Code: 91702
 Phone: (626) 812-5064 Fax: (626) 334-0410

C. In the space below, briefly describe how the storm water program is coordinated within your agency's departments and divisions. Include a description of any problems with coordination between departments. To facilitate this, complete the Table 1.

The Engineering Division of the Public Works Department is responsible for coordinating the City's storm water quality management program for the City of Azusa. The Assistant Director of Public Works / City Engineer is responsible for managing the Engineering Division and is responsible for managing most of the municipal NPDES permit tasks, which include public agency activities, development construction, and illicit connection/detection and elimination. The City Engineer also works closely with the Planning and Building Departments, relative to development planning and inspections.

TABLE 1 - Program Management

Storm Water Management Activity	Division/Department	# of Individuals Responsible for Implementing
1. Outreach & Education	Engineering / Public Works	5
2. Industrial/Commercial Inspections	Engineering / Public Works	3
3. Construction Permits/Inspections	Engineering / Public Works	5
4. IC/ID Inspections	Public Works / Code Enforcement	3
5. Street sweeping	Streets / Public Works	2
6. Catch Basin Cleaning	Streets / Public Works	2
7. Spill Response	Streets / Public Works	8
8. Development Planning (project/SUSMP review and approval)	Engineering / Public Works	5

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4**

D. Staff and Training

Attach a summary of staff training over the last fiscal year. This shall include the staff name, department, type of training, and date of training.

E. Budget Summary

1. Does your municipality have a storm water utility? Yes No
If no, describe the funding source(s) used to implement the requirements of Order No. 01-182.

- Sewer Fund
- General Fund

2. Are the existing financial resources sufficient to accomplish all required activities? Yes No

3. Complete Table 2 to the extent that accurate information is available (indicate U in the spaces where the information is unavailable), and report any supplemental dedicated budgets for the same categories on the lines below the table.

4. List any additional state/federally funded projects related to storm water.

None.

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4**

TABLE 2

Program Element	Expenditures in Previous Fiscal Year	Estimated Amount Needed to implement Order 01-182
1. Program management		
a. Administrative costs	\$10,000	\$10,000
b. Capital costs	\$0	\$0
2. Public Information and Participation		
a. Public Outreach/Education	\$7,500	\$7,500
b. Employee Training	\$8,900	\$9,000
c. Corporate Outreach	\$0	\$0
d. Business Assistance		
3. Industrial/Commercial inspection/ site visit activities	\$0	\$0
4. Development Planning	\$2,250	\$2,250
5. Development Construction		
a. Construction inspections	\$9,000	\$10,500
6. Public Agency Activities		
a. Maintenance of structural and treatment control BMPs	\$6,500	\$6,500
b. Municipal street sweeping	\$250,000	\$250,000
c. Catch basin cleaning	\$7,000	\$7,000
d. Trash collection/recycling	\$5,500	\$5,500
e. Capital costs	\$6,000	\$6,000
f. Other		
7. IC/ID Program		
a. Operations and Maintenance	\$2,300	\$2,300
b. Capitol Costs	\$1,100	\$1,100
8. Monitoring	\$0	\$0
9. Other		
10. TOTAL	\$315,050	\$317,650

List any supplemental dedicated budgets for the above categories:

List any activities that have been contracted out to consultants/other agencies:

Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4

II. Receiving Water Limitations (Part 2)

- A. Are you aware, or have you been notified, of any discharges from your MS4 that cause or contribute to a condition of nuisance or to the violation of any applicable water quality standards? Yes No
- B. Has the Regional Board notified you that discharges from your MS4 are causing or contributing to an exceedance of water quality standards? Yes No
- C. If you answered Yes to either of the above questions, you must attach a Receiving Water Limitations (RWL) Compliance Report. The Report must include the following:
1. A description of the pollutants that are in exceedance and an analysis of possible sources;
 2. A plan to comply with the RWL (Permit, Part 2);
 3. Changes to the SQMP to eliminate water quality exceedances;
 4. Enhanced monitoring to demonstrate compliance; and
 5. Results of implementation.

III. SQMP Implementation (Part 3)

- A. Has your agency implemented the SQMP and any additional controls necessary to reduce the discharges of pollutants in storm water to the maximum extent practicable? Yes No
- B. If your agency has implemented additional or different controls than described in the countywide SQMP, has your agency developed a local SQMP that reflects the conditions in its jurisdiction and specifies activities being implemented under the appropriate elements described in the countywide SQMP? Yes No
- C. Describe the status of developing a local SQMP in the box below.

The local SQMP was developed 8 permit years ago. The City has revised the SQMP to prefer infiltration control in meeting post-construction runoff pollution mitigation requirements associated with the development planning/SUSMP program.

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4**

D. If applicable, describe an additional BMP, in addition to those in the countywide SQMP, that your city has implemented to reduce pollutants in storm water to the maximum extent practicable.

Not applicable.

E. Watershed Management Committees (WMCs)

- 1. Which WMC are you in? [San Gabriel River](#)
- 2. Who is your designated representative to the WMC? [Carl Hassel](#)
- 3. How many WMC meetings did you participate in last year? **12**
- 4. Describe specific improvements to your storm water management program as a result of WMC meetings.

The WMC meetings offer an opportunity to discuss different methods of facilitating compliance with the MS4 permit.

5. Attach any comments or suggestions regarding your WMC.

F. Storm Water Ordinance

- 1. Have you adopted a storm water and urban runoff ordinance to enforce all requirements of Order 01-182? Yes No

If not, describe the status of adopting such an ordinance.

- 2. If yes, have you already submitted a copy of the ordinance to the Regional Board? Yes No

If not, please attach a copy to this Report.

Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4

3. Were any amendments made to your storm water ordinance during the last fiscal year? Yes No
If yes, attach a copy of amendments to this Report.

G. Discharge Prohibitions

1. List any non-storm water discharges you feel should be further regulated:

None at this time.

2. List any non-storm water discharges you feel should be exempt, and provide an explanation for each:

None at this time.

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4**

IV. Special Provisions (Part 4)

A. Public Information and Participation (Part 4.B)

In addition to answering the following questions, attach a summary of all storm water education activities that your agency conducted or participated in last year.

1. No Dumping Message

- a) How many storm drain inlets does your agency own? 30
- b) How many storm drain inlets were marked with a no dumping message in the last fiscal year? 30
- c) What is the total number of storm drain inlets that are legibly marked with a no dumping message? 30

If this number is less than the number in question 1.b, describe why all inlets have not been marked, the process used to implement this requirement, and the expected completion date.

- d) How many public access points to creeks, channels, and other water bodies within your jurisdiction have been posted with no dumping signage in the past year? Not applicable.

Describe your agency's status of implementing this requirement by the date required in Order No. 01-182.

The City does not have any water bodies requiring anti-dumping signage.

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4**

2. Reporting Hotline

- a) Has your agency established its own hotline for reporting and for general storm water management information? Yes No
- b) If so, what is the number? [1.888.CLEANLA](tel:1888CLEANLA)
- c) Is this information listed in the government pages of the telephone book? Yes No
- d) If no, is your agency coordinated with the countywide hotline? Yes No
- e) Do you keep record of the number of calls received and how they were responded to? Yes No
- f) How many calls were received in the last fiscal year? 2
- g) Describe the process used to respond to hotline calls.

Reports of illicit discharges/connections are evaluated for immediate response. The first task is to determine what kind of discharge is being reported by asking the reporting party if the discharge is discolored or has an odor and if it is in progress. If the discharge is in progress and appears to be particularly harmful, the matter is referred to fire or police for an immediate response. If the discharge is sewage, the incident is referred to Public Works for an immediate response. For less serious discharges, a visit is scheduled as soon as possible.

- h) Have you provided the Principal Permittee with your current reporting contact information? Yes No
- i) Have you compiled a list of the general public reporting contacts for all Permittees and posted it on the www.888CleanLA.com web site (Principal Permittee only)? Yes No
If not, when is this scheduled to occur? [Not applicable.](#)

3. Outreach and Education

- a) Describe the strategy developed to provide outreach and bilingual materials to target ethnic communities. Include an explanation of why each community was chosen as a target, how program effectiveness will be determined, and status of implementation. (Principal Permittee only)

[Not applicable.](#)

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4**

- b) Did the Principal Permittee organize quarterly Public Outreach Strategy meetings that you were aware of? Yes No
 How many Public Outreach Strategy meetings did your agency participate in last year? 4
 Explain why your agency did not attend any or all of the organized meetings.

The City's consultant or a City representative attended each quarterly meeting.

Identify specific improvements to your storm water education program as a result of these meetings:

Specific improvements include general audience outreach materials that address the problems with various pollutants (including but not limited to paint, fertilizers, fecal material, etc.). Also valuable are the public service announcements.

List suggestions to increase the usefulness of quarterly meetings:

The meetings should focus more on promoting awareness of specific pollutants on receiving water quality, especially those that have been elevated to TMDL status.

If quarterly Public Outreach Strategy meetings were not organized, explain why not and when this requirement will be implemented (*Principal Permittee only*).

Not applicable.

- c) Approximately how many impressions were made last year on the general public about storm water quality via print, local TV, local radio, or other media? Over 50,000
- d) Describe efforts your agency made to educate local schools on storm water pollution.

The City notified all schools within its jurisdiction, informing them of the Environmental Defenders Program and encouraging school administrators to take advantage of it.

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4**

- e) Did you provide all schools within each school district in Los Angeles County with materials necessary to educate a minimum of 50 percent of all school children (K-12) every 2 years on storm water pollution (*Principal Permittee only*)? Yes No
If not, explain why.

Not applicable.

- f) Describe the strategy developed to measure the effectiveness of in-school educational programs, including assessing students' knowledge of storm water pollution problems and solutions before and after educational efforts (*Principal Permittee only*).

Not applicable.

For Permit Years 2-5, attach an assessment of the effectiveness of in-school storm water education programs.

- g) What is the behavioral change target that was developed based on sociological data and other studies (*Principal Permittee only*)?

Not applicable.

If no target has been developed, explain why and describe the status of developing a target.

Not applicable.

What is the status of meeting the target by the end of Year 5?

Not applicable.

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4**

4. Pollutant-Specific Outreach

- a) Attach a description of each watershed-specific outreach program that your agency developed (*Principal Permittee only*). All pollutants listed in Table 1 (Section B.1.d.) must be included. **NA**
- b) Did your agency cooperate with the Principal Permittee to develop specific outreach programs to target pollutants in your area? Yes No
- c) Did your agency help distribute pollutant-specific materials in your city? Yes No
- d) Describe how your agency has made outreach material available to the general public, schools, community groups, contractors and developers, etc...

Typically, materials are made available at the public works and planning counters where general audience BMPs are located, along with information regarding development planning and development construction requirements. Materials specific to schools are distributed by way of the "Environmental Defenders Program." General audience BMPs are also made available during various community events. Beyond this, industrial and commercial BMP materials are distributed to subject businesses as part of the City's industrial/commercial inspection program. It should be noted that the City has updated its BMP handouts in English and Spanish to include" sewage spills (for businesses and residents); swimming pool discharges; mortar and concrete usage (for contractors); household activities that can cause runoff pollution and BMPs that can be used to prevent pollution; tips for pet care to minimize the discharge of fecal matter to the MS4; guidelines for fund-raising car washes; a condensed version of "The Ocean Begins at Your Door;" tips for landscaping and gardening (businesses and residents); a guide for restaurants; and guidelines for carpet cleaning activities (businesses and residents).

5. Businesses Program

- a) Briefly describe the Corporate Outreach Program that has been developed to target gas stations and restaurant chains (*Principal Permittee only*).

Not applicable.

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4**

- b) How many corporate managers did your agency (*Principal Permittee only*) reach last year? **Not applicable.**
- c) What is the total number of corporations to be reached through this program (*Principal Permittee only*)? **Not applicable.**
- d) Is your agency meeting the requirement of reaching all gas station and restaurant corporations once every two years (*Principal Permittee only*)? **Not applicable.** Yes No
If not, describe measures that will be taken to fully implement this requirement.

- e) Has your agency developed and/or implemented a Business Assistance Program? **Not applicable.** Yes No
If so, briefly describe your agency's program, including the number of businesses assisted, the type of assistance, and an assessment of the program's effectiveness.

- 6. Did you encourage local radio stations and newspapers to use public service announcements? Yes No
How many media outlets were contacted?
Which newspapers or radio stations ran them?

Los Angeles Times, The Wave, KLOS, and the Tribune.

Who was the audience?

General

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4**

7. Did you supplement the County's media purchase by funding additional media buys? Yes No

Estimated dollar value/in-kind contribution:

Type of media purchased:

Frequency of the buys:

Did another agency help with the purchase? Yes No

8. Did you work with local business, the County, or other Permittees to place non-traditional advertising? Yes No

If so, describe the type of advertising.

9. Did you establish local community partnerships to distribute educational storm water pollution prevention material? Yes No

Describe the materials that were distributed:

Who were the key partners?

Who was the audience (businesses, schools, etc.)?

10. Did you participate in or publicize workshops or community events to discuss storm water pollution? Yes No
How many events did you attend? **5**

11. Does your agency have a website that provides storm water pollution prevention information? Yes No
If so, what is the address? www.ci.azusa.ca.us

12. Has awareness increased in your community regarding storm water pollution? Yes No
Do you feel that behaviors have changed? Yes No
Explain the basis for your answers. Include a description of any evaluation methods that are used to determine the effectiveness of your agency's outreach.

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4**

By a survey conducted by the Principal Permittee.

13. How would you modify the storm water public education program to improve it on the City or County level?

By making a stronger effort to inform permittees of the availability of various public education materials. It should be noted that the Principal Permittee has been better in this regard. Unfortunately, it has not been proactive in developing pollutant-specific outreach materials for the San Gabriel River watershed.

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form**

Attachment U-4

B. Industrial/Commercial Facilities Program

1. Critical Source Inventory Database

Did you (individually or jointly) update the Database for Critical Sources Inventory? Yes No

Comments/Explanation/Conclusion:

2. Inspection Program

Provide the reporting data as suggested in the following tables.

Category	Initial Number of Facilities at the start of cycle proposed for inspection by categories (after the initial year, the updated number based on the new data)	Number of facilities inspected in the current reporting year	% Completed at the time of this report for present cycle (from the initial value, and from the updated value after first cycle)	Total number since permit adoption
Landfills	N/A	N/A	N/A	N/A
TSDf	N/A	N/A	N/A	N/A
...				
Comments/Explanation/Conclusion:			All required inspections have been completed.	

3. BMPs Implementation

Provide the reporting data as suggested in the following table.

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form**

Attachment U-4

Category	Number of facilities inspected by category in this reporting year	Number of facilities identified as adequately implementing BMPs as specified in this reporting year	% adequately implementing out of total in this reporting year	Number of facilities required to implement or upgrade in this reporting year	Number of facilities inspected by category in this reporting cycle	Number of facilities identified as adequately implementing BMPs as specified in this reporting cycle	% adequately implementing out of total in this reporting cycle	Number of facilities required to implement or upgrade in this reporting cycle	Total Number during this permit adequately implementing	Total Number during this permit required to implement or upgrade
Landfills	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A
...	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A

Comments/Explanation/Conclusion: All required inspections have been completed.

4. Enforcement Activities

Provide the reporting data as suggested in the following tables.

Enforcement Actions by categories (e.g. Warning letter, NOV, referral to D.A., etc.)	Number of facilities issued enforcement actions in the current reporting year	Number of facilities issued enforcement actions in the current reporting cycle	Number of facilities (re)inspected due to enforcement actions in current reporting year	Number of facilities (re)inspected due to enforcement actions in current reporting cycle	Number of facilities brought into compliance in the current reporting year	Number of facilities brought into compliance in current reporting cycle	Total number of enforcement actions since permit adoption (by category)
N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A

Facilities by category	Number of Warning letters	Number of NOVs	Number of Referral	Number of Other
N/A	N/A	N/A	N/A	N/A

Comments/Explanation/Conclusion: All required inspections have been completed.

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form**

Attachment U-4

5. Program Implementation Effectiveness Assessment

Please give a brief assessment of the implementation of the program in removing pollutants from the storm water discharges. Please provide an explanation. Suggested improvements or adjustments based on the knowledge gained through this reporting period activities must be reflected in a change in the SQMP, if warranted.

Highly Effective

Somewhat Effective

Non-effective

Comments/Explanation/Conclusion:

6. You must also submit a quarterly electronic submittal of your Industrial/Commercial Facilities Program activities.

Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4

C. Development Planning Program (Part 4.D)

1. Does your agency have a process to minimize impacts from storm water and urban runoff on the biological integrity of natural drainage systems and water bodies in accordance with requirements under CEQA, Section 404 of the CWA, local ordinances, and other legal authorities? Yes No

Attach examples showing how storm water quality impacts were addressed in environmental documents for projects over the past year. [The City's CEQA check list, which is the standard used by all permittees, was submitted with last year's annual report. When a CEQA project comes to the City, it is evaluated for potential storm water impacts using development construction and development planning/SUSMP and activity specific project guidelines.](#)

2. Does your agency have procedures to include the following requirements in all priority development and redevelopment projects:
- a) Maximize the percentage of permeable surfaces to allow more percolation of storm water into the ground? Yes No
- b) Minimize the quantity of storm water directed to impermeable surfaces and the MS4? Yes No
- c) Minimize pollution emanating from parking lots through the use of appropriate treatment control BMPs and good housekeeping practices? Yes No
- d) Provide for appropriate permanent measures to reduce storm water pollutant loads from the development site? Yes No

3. List the types and numbers of BMPs that your agency required for priority projects to meet the requirements described above.

[The City generally allows the use of catch basin inserts and is moving in the direction of infiltration controls, but has allowed other controls as well. However, the City has been requiring infiltration controls in response to the Regional Board's preference for infiltration over structural treatment.](#)

4. Describe the status of the development or implementation of peak flow controls in Natural Drainage Systems.

[Generally, any project sited in an area that drains into an unlined conveyance is required to assure that post-construction runoff flowrate does not exceed the pre-development runoff flowrate.](#)

Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4

5. Has your agency amended codes and/or ordinances to give legal effect to the SUSMP changes required in the Permit? Yes No
6. Describe the process your agency uses to include SUSMP design standards in new development and redevelopment project approvals.

In the past, the City allowed developers to choose either infiltration or treatment controls with the emphasis on infiltration to meet SUSMP post-construction runoff pollution mitigation requirements. The City is in the process of becoming more prescriptive in requiring developers to select preferred controls in the following order of desirability: vegetative infiltration; dry wells; infiltration chambers with manufactured pretreatment, if feasible; detention controls (that hold and release to the MS4), and filtration controls (e.g., stormwater interceptors and catch basin inserts). CDS units would only be required under certain circumstances.

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4**

7. How many of each of the following projects did your agency review and condition to meet SUSMP requirements last year?
- a) Residential 1
 - b) Commercial 4
 - c) Industrial 3
 - d) Automotive Service Facilities 0
 - e) Retail Gasoline Outlets 0
 - f) Restaurants 1
 - g) Parking Lots 0
 - h) Projects located in or directly adjacent to or discharging directly to an environmentally sensitive area 0
 - i) Total number of permits issued to priority projects 0
8. What is the percentage of total development projects that were conditioned to meet SUSMP requirements? 20%
9. How has your agency prepared to reduce the SUSMP threshold for industrial/commercial facilities to 1 acre from 100,000 square feet in 2003?

By public outreach to all in the City of Azusa.

10. After 2003, how many additional projects per year will require/did require implementation of SUSMP requirements as a result of the lower threshold? Unknown
11. Does your agency participate in an approved regional or sub-regional storm water mitigation program to substitute in part or wholly SUSMP requirements for new development? Yes No
12. Has your agency modified its planning procedures for preparing and reviewing CEQA documents to consider potential storm water quality impacts and provide for appropriate mitigation? Yes No

If no, provide an explanation and an expected date of completion.

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4**

D. Development Construction Program

1. Describe your agency's program to control runoff from construction activity at all construction sites within its jurisdiction.

The City requires a SWPPP for projects that are expected to disturb 1 acre or more by grading, clearing, and/or excavating and minimum BMPs for projects that are expected to disturb less than 1 acre of soil disturbance. These conditions must be met to qualify for a grading permit.

2. Does your agency require the preparation, submittal, and implementation of a Local Storm Water Pollution Prevention Plan (Local SWPPP) prior to the issuance of a grading permit for all sites that meet one or all of the following criteria?

- a) Will result in soil disturbance of one acre or greater Yes No
- b) Is within, directly adjacent to, or is discharging directly to an environmentally sensitive area Yes No
- c) Is located in a hillside area Yes No

3. Attach one example of a local SWPPP
4. Describe the process your agency uses to require proof of filing a Notice of Intent for coverage under the State General Construction Activity Storm Water permit and a certification that a SWPPP has been prepared prior to issuing a grading permit?

In accordance with the current MS4 permit for Los Angeles County, the City requires a SWPPP for projects that are expected to disturb 1 acre or more by grading, clearing, and or/excavating and minimum BMPs for projects that are expected to disturb less than 1 acre of soil disturbance. These conditions must be met to qualify for a grading permit.

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4**

- 5. How many building/grading permits were issued to sites requiring Local SWPPPs last year? 3
- 6. How many building/grading permits were issued to sites requiring coverage under the General Construction Activities Storm Water Permit last year? 3
- 7. How many building/grading permits were issued to construction site less than one acre in size last year? 482
- 8. How many construction sites were inspected during the last wet season? 28
- 9. Complete the table below.

Type of Violation	# of Violations	% of Total Inspections	# of Follow-up Inspections	# of Enforcement Actions
Off-site discharge of sediment	0	0	0	0
Off-site discharge of other pollutants	0	0	0	0
No or inadequate SWPPP	0	0	0	0
Inadequate BMP/SWPPP implementation	0	0	0	0

- 10. Describe the process for taking enforcement actions against construction site violations, including the types of actions that are taken.

An instance of non-compliance with any of the development construction program triggers a verbal warning, followed with a Notice of Violation letter. If non-compliance persists, the matter then becomes a code enforcement issue. However, the verbal warnings, coupled with the threat of referred the contractor to the Regional Board for stronger enforcement action, has been sufficient to compel compliance.

- 11. Describe the system that your agency uses to track the issuance of grading permits.

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4**

All grading permits are stored and tracked on a spreadsheet.

E. Public Agency Activities (Part 4.F)

1. Sewage System Maintenance, Overflow, and Spill Prevention
(only applicable to agencies that own and/or operate a sanitary sewer system)

- a) Has your agency developed and implemented a response plan for sanitary sewer overflows that includes the requirements in Order 01-182? Yes No
- b) How many sanitary sewer overflows occurred within your jurisdiction? 0
- c) How many did your agency respond to? 0
- d) Did your agency investigate all complaints received? *None reported.* Yes No
- e) How many complaints were received? 0
- f) Upon notification, did your agency immediately respond to overflows by containment? *N/A* Yes No
- g) Did your agency notify appropriate sewer and public health agencies when a sewer overflowed to the MS4? *N/A* Yes No
- h) Did your agency implement a program to prevent sewage spills or leaks from sewage facilities from entering the MS4? Yes No

If so, describe the program:

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4**

All reports of sewage releases are responded to immediately. Field crews are dispatched to the reported release location and are trained to prevent the entry of sewage into the catch basin (e.g., by covering the inlet with sand bags). The ponded sewage is then vacuumed and discharged into the sewer system. The affected area is also disinfected with sodium hypochlorite and then vacuumed (while the catch basin inlet is still protected) for disposal into the sewage system as well).

- i) Did your agency implement a program to identify, repair, and remediate sanitary sewer blockages, exfiltration, overflow, and wet weather overflows from sanitary sewers to the MS4? Yes No

If so, describe the program:

This program has been in effect prior to this requirement. In regards to preventative maintenance, the sewer system is periodically inspected (manually and through video surveys) for areas in need of repair. A priority list is prepared and repair work is scheduled accordingly. In the event of an overflow or a release, the sewer is inspected to determine cause. Usually, however, overflows are due to rain intrusion.

2. Public Construction Activities Management

- a) What percentage of public construction sites 5 acres or greater in size did your agency obtain coverage under the State of California General Construction Activities Storm Water Discharge Permit ? %
- b) Give an explanation for any sites greater than 5 acres that were not covered:

Not applicable.

- c) What is the total number of active public construction sites? 0
 How many were 5 acres or greater in size? 0

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4**

- d) (After March, 2003) Did your agency obtain coverage under the State of California General Construction Activities Storm Water Discharge Permit coverage for public construction sites for sites one acre or greater? Yes No

3. Vehicle Maintenance/Material Storage Facilities/Corporation Yards Management

- a) Did your agency implement pollution prevention plans for each public vehicle maintenance facility, material storage facility, and corporation yard? Yes No

- b) Briefly describe how your agency implements the following, and any additional, BMPs to minimize pollutant discharges in storm water:

- (1) Good housekeeping practices
- (2) Material storage control
- (3) Vehicle leaks and spill control
- (4) Illicit discharge control

1. Good housekeeping practices are implemented in accordance with its City's storm water pollution prevention plan and its public agency program.

2. Material storage control BMPs are implemented in accordance with its City's storm water pollution prevention plan and its public agency program.

3. Vehicle leaks and spill control BMPS are implemented through the City's storm water pollution prevention plan and its public agency program.

4. Illicit discharge control BMPs are implemented through the City's storm water pollution prevention plan, its public agency program, and its illicit connection/discharge detection and elimination program.

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4**

- c) Are all Permittee owned and/or operated vehicle/equipment wash areas self-contained, covered, equipped with a clarifier, and properly connected to the sanitary sewer? Yes No
If not, what is the status of implementing this requirement?

- d) How many Permittee owned and/or operated vehicle/equipment wash areas are scheduled to be redeveloped to include the BMPs listed above? None.

4. Landscape and Recreational Facilities Management

- a) Has your agency developed a standardized protocol for the routine and non-routine application of pesticides, herbicides (including pre-emergents), and fertilizers? Yes No
Briefly describe this protocol:

The protocol or "SOP" calls for impacted landscape maintenance personnel to (1) apply minimum amounts of each significant material; and (2) avoid application during storm events or impending storm events.

- b) How does your agency ensure that there is no application of pesticides or fertilizers immediately before, during, or immediately after a rain event or when water is flowing off the area to be applied?

Impacted City personnel were given training in the proper application of pesticides and chemical organic fertilizers.

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4**

- c) Are any banned pesticides, herbicides, fungicides, or rodenticides stored or applied in your agency's jurisdiction that you know of?

Yes No

If so, list them:

- d) What percentage of your agency's staff that apply pesticides are certified by the California Department of Food and Agriculture, or are under the direct supervision of a certified pesticide applicator?

100%

- e) Describe procedures your agency has implemented to encourage retention and planting of native vegetation and to reduce water, fertilizer, and pesticide needs:

Landscape maintenance staff have been provided training that encourages the planting of native and drought tolerant vegetation, which is also in keeping with the City's water conservation program. Impacted City staff have also been encouraged, also by training, to incorporate integrated pest management (IPM) whenever possible as a means of reducing the need for pesticides.

5. Storm Drain Operation and Management

- a) Did your agency designate catch basin inlets within its jurisdiction as Priority A; Priority B; and Priority C?

Yes No

- b) How many of each designation exist in your jurisdiction?

Priority A: 0
 Priority B: 0
 Priority C: 30

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4**

c) Is your city subject to a trash TMDL? Yes No

d) If yes, describe the activities and/or implementation measures that your agency conducted pursuant to the TMDL and any other trash reduction efforts that occurred.

e) How many times were all Priority A basins cleaned last year? N/A

f) How many times were all Priority B basins cleaned last year? N/A

g) How many times were all Priority C basins cleaned last year? 1

h) How much total waste was collected in tons from catch basin clean-outs last year? .3 Tons

i) Attach a record of all catch basins in your jurisdiction. This shall identify each basin as City or County owned, and Priority A, B, or C. For all basins that are owned and operated by your agency, include dates that each was cleaned out over the past year.

j) Did your agency place and maintain trash receptacles at all transit stops within its jurisdiction. Yes No

k) How many new trash receptacles were installed last year? 0

l) Did your agency place special conditions for events that generated substantial quantities of trash and litter including provisions that:

(1) Provide for the proper management of trash and litter generated from the event? Yes No

(2) Arrange for temporary screens to be placed on catch basins? Yes No

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4**

(3) Or for catch basins in that area to be cleaned out subsequent to the event and prior to any rain? Yes No

m) Did your agency inspect the legibility of the catch basin stencil or labels? Yes No
What percentage of stencils were legible? 100%

n) Were illegible stencils recorded and re-stenciled or re-labeled within 180 days of inspection? Yes No

o) Did your agency visually monitor Permittee-owned open channel storm drains and other drainage structures for debris at least annually and identify and prioritize problem areas of illicit discharge for regular inspection? N/A Yes No
Is the prioritization attached? N/A Yes No

p) Did your agency review its maintenance activities to assure that appropriate storm water BMPs are being utilized to protect water quality? Yes No
What changes have been made?

None.

q) Did your agency remove trash and debris from open channel storm drains a minimum of once per year before the storm season? N/A Yes No

r) How did your agency minimize the discharge of contaminants during MS4 maintenance and clean outs?

Maintenance/clean-outs are either performed by hand or mechanically with the use of a vacuum truck. Neither of these methods results in the discharge of contaminants or pollutants to the MS4.

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4**

s) Where is removed material disposed of?

Material is taken to the City yard where it is stored in covered trash bins. The material is then taken to a landfill for disposal.

6. Streets and Roads Maintenance

a) Did your agency designate streets and/or street segments within its jurisdiction as one of the following:

- (1) Priority A – streets and/or street segments that are designated as consistently generating the highest volumes of trash and/or litter? Yes No
- (2) Priority B - streets and/or street segments that are designated as consistently generating moderate volumes of trash and/or litter? Yes No
- (3) Priority C – streets and/or street segments that are designated as generating low volumes of trash and/or litter? Yes No

b) Did your agency perform all street sweeping in compliance with the permit and according to the following schedule:

- (1) Priority A – These streets and/or street segments shall be swept at least two times per month? Yes No
- (2) Priority B - Each Permittee shall ensure that each streets and/or street segments is cleaned at least once per month? Yes No
- (3) Priority C – These streets and/or street segments shall be cleaned as necessary but in no case less than once per year? Yes No

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4**

- c) Did your agency require that saw cutting wastes be recovered and disposed of properly and that in no case shall waste be left on a roadway or allowed to enter the storm drain? Yes No
- d) Did your agency require that concrete and other street and road maintenance materials and wastes be managed to prevent pollutant discharges? Yes No
- e) Did your agency require that the washout of concrete trucks and chutes only occur in designated areas and never into storm drains, open ditches, streets, or catch basins leading to the storm drain system? Yes No
- f) Did your agency train its employees in targeted positions (whose interactions, jobs, and activities affect storm water quality) regarding the requirements of the storm water management program to:
 - (1) Promote a clear understanding of the potential for maintenance activities to pollute storm water? and Yes No
 - (2) Identify and select appropriate BMPs? Yes No

7. Parking Facilities Management

- a) Did your agency ensure that Permittee-owned parking lots be kept clear of debris and excessive oil buildup and cleaned no less than 2 times per month and/or inspected no less than 2 times per month to determine if cleaning is necessary. Yes No
- b) Were any Permittee-owned parking lots cleaned less than once a month? How many? Yes No

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4**

8. Public Industrial Activities Management
- a) Did your agency, for all municipal activity considered an industrial activity under USEPA Phase I storm water regulations, obtain separate coverage under the State of California General Industrial Activities Storm Water Discharge Permit no later than December 31, 2001? Yes No
- b) Does your agency serve a population of less than 100,000 people? Yes No
9. Emergency Procedures
- a) In case of real emergencies, did your agency repair essential public services and infrastructure in a manner to minimize environmental damage? Yes No
- b) Were BMPs implemented to the extent that measures did not compromise public health and safety? Yes No
10. Feasibility Study
- a) Did your agency cooperate with the County Sanitation Districts of Los Angeles County to prepare a study which investigates the possible diversion of dry weather flows or the use of alternative treatment control BMPs? Yes No
- b) Did your agency review its individual prioritized list and create a watershed based priority list of drains for potential diversion and submit a listing of priority diversions to the Regional Board Executive Officer? Yes No

Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4

F. Illicit Connections and Illicit Discharges (IC/ID) Elimination Program (Part 4.G)

1. Attach a copy of your agency's IC/ID Elimination Implementation Program (Part 4.G.1.a.). [See uploaded attachment.](#)
2. Attach a map of your storm drain system showing all permitted connections (if available), and the locations of all illicit connections and discharges that occurred last year (Part 4.G.1.b). If your agency has not completed this requirement, describe the status of the development of a baseline map, including an expected completion date.

[This task was completed by the February 3, 2003 deadline specified in the current MS4 permit. Illicit connections and discharges that were reported and investigated during the previous permit year were plotted on GIS and a copy of the required GIS files were transmitted to the principal permittee for map plotting. It should be noted that the Sanitation District of Los Angeles County is in the process of plotting catch basins/storm drains for municipalities in Los Angeles County. The City intended to make use of this data once it becomes available.](#)

3. Describe your enforcement procedures for eliminating illicit discharges and terminating illicit connections.

[As reported last year, the City's policy regarding illicit discharges and connections is as follows:](#)

- [Upon discovery of an in progress illicit discharge, code enforcement or police, or file is summoned – depending on the type of material being discharged.](#)

[A discovery of a suspect illicit connection is investigated for verification. If it is in fact an illicit connection, enforcement action is initiated almost immediately.](#)

4. Describe your record keeping system to document all illicit connections and discharges.

[All reports of illicit discharges and connections and their disposition are tracked on hard-copy forms. Required reporting data are then converted into GIS format.](#)

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4**

- 5. What is the total length of open channel that your agency owns and operates? None
- 6. What length was screened last year for illicit connections? None
- 7. What is the total length of closed storm drain that your agency owns and operates? None
- 8. What length was screened last year for illicit connections? N/A
- 9. Describe the method used to screen your storm drains.

Field screening for drains less than 36" in diameter was limited to reports of suspected illicit connections from storm drain maintenance personnel while conducting catch basin clean-outs (regularly scheduled and unscheduled, based on reports of clogged catch basins). Beyond this, industrial/commercial inspections included observations for on-site illicit connections.

- 10. Provide the reporting data for illicit connections as suggested in the following table (you may submit a spreadsheet from your database that contains the information).

Year	Total # reported/ identified	Total # investigated	# that conveyed exempt discharges or NPDES permitted	# that conveyed illicit discharges that were terminated	# that were removed	# that resulted in enforcement action	# that resulted in <i>other</i> actions
01/02							
02/03							
03/04							
04/05							
05/06							
06/07							
07/08	0	0	0	0	0	0	0
08/09	0	0	0	0	0	0	0
09/10	0	0	0	0	0	0	0
10/11	0	0	0	0	0	0	0
11/12	0	0	0	0	0	0	0

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4**

11. Explain any *other* actions that occurred in the last year.

None.

12. What is the average time it takes your agency to initiate an illicit connection investigation after it is reported? **Immediately to 48 hours depending on the type of discharges.**

a) Were all identified connections terminated within 180 days? Yes No

b) If not, explain why.

13. Provide the reporting data for illicit discharges as suggested in the following table (you may submit a spreadsheet from you database that contains this information).

Year	Total # reported	Total # that were discontinued/ cleaned up voluntarily through enforcement and the source was identified	# that were cleaned up but the source could not be identified	# that resulted in no evidence of discharge	# that were determined to be conditionally exempt	# that were exempt or in compliance and the source identified	# that resulted in enforcement action
01/02							
02/03							
03/04							
04/05							
05/06							
06/07							
07/08	3	3	0	0	0	0	0
08/09	4	4	0	0	0	0	0
09/10	0	0	0	0	0	0	0
10/11	0	0	0	0	0	0	0

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4**

11/12	0	0	0	0	0	0	0
-------	---	---	---	---	---	---	---

14. What is the average response time after an illicit discharge is reported? **Less than 24 hours.**

a) Did any response times exceed 72 hours? Yes No

b) If yes, explain why.

15. Describe the your agency's spill response procedures.

In the event of a release to the MS4, the City's protocol calls for preventing the material from entering the storm drain (catch basin or channel) through containment and/or by placing a barrier in front of the catch basin inlet. The next step is to properly remove the material. In the event of a hazardous materials release, the Fire Department is responsible for properly removing and disposing the material depending on type.

16. What would you do differently to improve your agency's IC/ID Elimination Program?

Provide incentives to City field personnel to report suspect or actual illicit connections. Also, the City is developing an electronic reporting form to facilitate reporting and recording an illicit connection or discharge.

17. Attach a list of all permitted connections to your storm sewer system.

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4**

V. Monitoring

Briefly describe any storm water monitoring activities that are not required by Order No. 01-182 that your municipality conducted, participated in, or received funding to conduct in the past fiscal year. These activities should correspond with the dollar amount you listed in Table 2.

VI. Assessment of Program Effectiveness

- A. Attach a summary of the effectiveness of your storm water management program. This summary should include, at a minimum, the following:
1. An assessment of your agency's compliance with permit requirements, based on your responses to the questions in this form;
 2. Descriptions of any evaluation methods that your agency uses to determine the effectiveness of your storm water management program;
 3. A summary of the strengths and weaknesses of your agency's storm water management program;
 4. A list of specific program highlights and accomplishments;
 5. A description of water quality improvements or degradation in your watershed over the past fiscal year;
 6. Interagency coordination between cities to improve the storm water management program;
 7. Future plans to improve your agency's storm water management program; and
 8. Suggestions to improve the effectiveness of your program or the County model programs.
- B. On a scale of 1 to 10 (10 being full implementation of requirements by their deadlines), rate your municipality's level of compliance with Order No. 01-182.
- C. List any suggestions your agency has for improving program reporting and assessment.

A. Program Effectiveness

1. As mentioned in previous reports, the City believes it has implemented each of the program tasks associated with the current and previous municipal NPDES permit. It must be presumed, therefore, that so doing has resulted in program effectiveness desired by the Regional Board. The municipal NPDES permit is, essentially, a process-oriented regulation. If all of the tasks are performed, it must be concluded that runoff pollution has been reduced and water quality has been improved to some extent. A more objective and reliable method of

Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4

determining program effectiveness is to use monitoring data, which is expected to be available some time next year.

2. In the absence of objective criteria, the City concludes that its storm water management program is effective. It should be noted that unlike the General Industrial Activity Storm Water Permit, the municipal NPDES permit is not an iterative-oriented permit, based on a "storm water management by objectives approach (i.e., an approach that would allow permittees to determine how to achieve a particular water quality objective). It is the permit, as written by the Regional Board, which determines what compliance should be in order to meet water quality standards or objectives.
 3. The City cannot make a determination as to whether its Regional Board-mandated storm water management program is strong or weak. It is a program that has been developed by the Regional Board for implementation by permittees that can only be objectively evaluated through storm water and non-storm water monitoring data. Because the City has implemented the requisite program tasks, it must be concluded that its storm water management program is at least adequate.
 4.
 - The City has completed all of its industrial and commercial inspections. In addition, all inspected facilities have been GPS-plotted. The data will be used to generate a GIS-layer showing the location of industrial and commercial facilities relative to catch basins.
 - The City continues to conduct public education outreach to general and specific audiences to address a variety of activities that give rise to runoff pollution and, to this end, has developed a new set of public education brochures.
 5. The City does not know of any water quality improvements or degradation of that reach of the San Gabriel River into which it drains.
 6. Coordination has improved as a result of leadership provided by the County of Los Angeles and the City of Downey, which chairs SGRWMAC meetings.
 7. To work towards the development of an MS4 permit that is specific to municipalities situated in the upper San Gabriel and Los Angeles Rivers. Permittees situated in these sub-watersheds drain into spreading grounds and other infiltration basins that could be used to meet SUSMP requirements and several TMDLs.
 8. None at this time.
- B. Self Assessment

Because the City has fully implemented all of the requirements of the Los Angeles County MS4 permit, it rates itself a 10.

C. Suggestions for Improving Program Reporting and Assessment

**Los Angeles County Municipal Storm Water Permit (Order 01-182)
Individual Annual Report Form
Attachment U-4**

This task should be worked on collectively by members of MWC. It should be noted that the County deserves substantial credit for developing an on-line reporting system that significantly streamlined the annual report completion and submittal process. It would also be helpful if the annual report for the next MS4 permit is abbreviated to include only relevant information.

Los Angeles County Municipal Storm Water Permit (Order 01-182)

Individual Annual Report Form

Attachment U-4

VII. Certification Statement

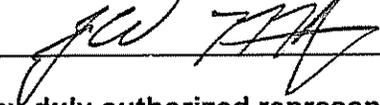

"I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted.

Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility, of a fine and imprisonment for knowing violations.
