

LADERA PARK

Regional Stormwater Capture Project

Project features include new drainage infrastructure to capture and treat stormwater. More than half a million gallons of stormwater will be converted annually to irrigate the park and infiltrate approximately 25 million gallons into underground wells below Ladera Park.

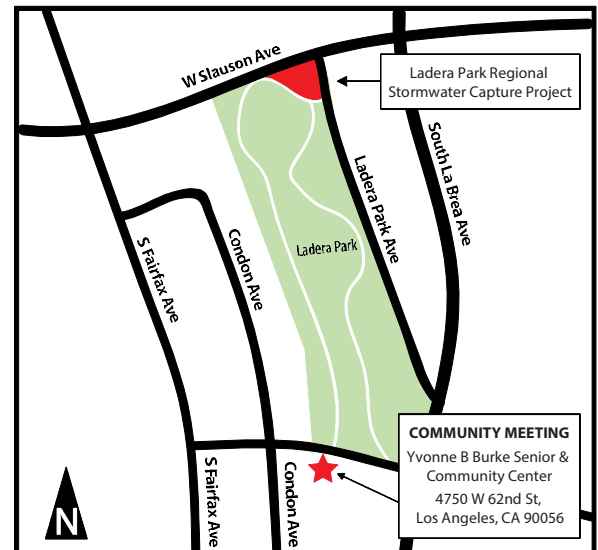

Community Benefits and Collaboration Opportunities

- Improve stormwater quality
- Upgrade drainage infrastructure
- Reduce use of potable water
- Ensure a sustainable environmental future
- Provide for a healthier environment

COMMUNITY MEETING March 29, 2018, 6-8 pm

Yvonne B Burke Senior & Community Center
4750 W 62nd St, Los Angeles, CA 90056
