

UPCOMING PROJECT

Avenue J-12 and 50th Street West Site Improvements, Well No. 4-91

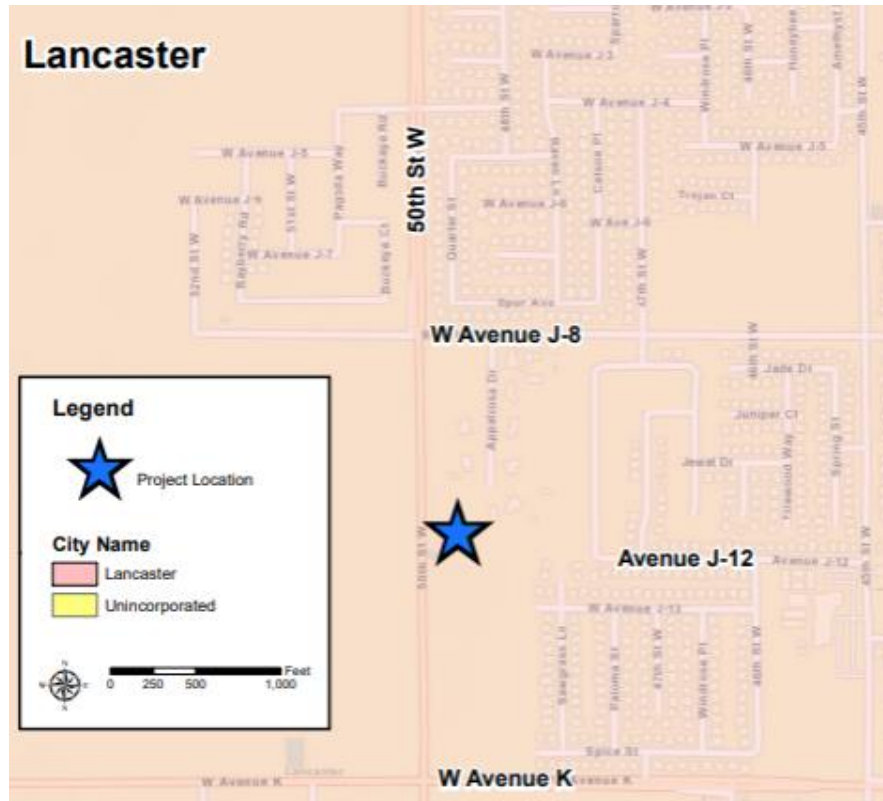

Los Angeles County Public Works is committed to fostering vibrant and resilient communities and supporting community wellness by providing reliable, high-quality water to Los Angeles County Waterworks District No. 40 customers. Public Works will be finalizing the design for a new groundwater well in your neighborhood.

The new groundwater well will be constructed at the Avenue J-12 and 50th Street West well site, in the City of Lancaster. Public Works will construct other associated improvements including a retention basin and security fencing around the site. The project will improve sustainability, water system reliability, and ensure the health and safety of the local community.

Project construction is planned between Fall of 2025 and Winter of 2026. Construction activities will take place from Monday through Friday, between 7:00 a.m. and 3:30 p.m. except during drilling of the well, a continuous operation. Temporary noise, localized vibrations, and minimal traffic impacts are expected during construction.

PROJECT LIMITS

For additional project information, click [here](#) for the project fact sheet or contact the Project Manager Abid Chowdhry at (626) 975-3752, Monday through Thursday between 7 a.m. and 5 p.m. or by email at achowdhry@pw.lacounty.gov.
