

## Wells 4-73, 4-74, 4-80, and 4-81

This project included the drilling and equipping of four drinking water wells capable of extraction and injection, and installation of all associated piping, at 41956 5th Street East, in Palmdale. These new wells will increase reliability of the water supply system for the region. Construction of these new wells was completed in April 2010.
